Wind and Weather
WASHINGTON, Nov. 27.—For lower Michigan: Fair, clear, weather slightly warmer, southwesterly winds.

CITY AND SUBURBS
W. D. Talford is confined to his home by illness. He delivered a memorial lecture to the medical profession of the city.

The board of health office will be closed today between 12 and 1 o'clock. Miss Minnie Ryan of Big Rapids is in the city, studying village sanitation.

John S. Palmer of the Soldiers' Home has been granted an increase pension and now receives \$100 a month.

Dr. William P. Pennington gave thanks yesterday afternoon for giving his oath of office as coroner of Kent county.

Dr. C. D. Thomas has returned from Ohio, where he delivered a memorial lecture to the medical profession of the city.

Justice Hydrum yesterday married August E. Beck and Mary A. Wernicke, George Hildinger and Elizabeth Walker. C. E. Temple, vice president of the G. R. & C. St. Louis railroad company is again in his office at work today.

The regular meeting of the St. Cecilia society will be held at 2:30 tomorrow afternoon, in the Ladies' Literary club rooms.

Hartwell C. Mann secured a judgment of divorce against his wife, Cora, and was granted a promissory note before Justice Brown yesterday.

Joseph Neuman, the man arrested at the residence of Link Dolan yesterday, was admitted to bail in the sum of \$500 by Justice Hydrum.

John Brown, yesterday, married George D. Underhill and Eva A. Rose, both of Sparta, and Moses J. Blakely and Lisa C. Fowler, of Alcona.

The county clerk's office will be open today to accommodate those who are desirous of making applications for the required license yesterday.

John P. McCarthy was before the opening speech and also several choice selections at the Knights of St. John's entertainment December 3.

The little children of the free kindergarten school on North Washington street will enjoy a turkey dinner today, through the generosity of several society ladies.

Justice Hydrum yesterday granted Mark's hospital yesterday to marry Adeline Thoren of Loda and an invalid at the home, address Emma Street, West of St. Clair.

Thirteen marriage licenses were issued from the county clerk's office yesterday which number exactly the same as those issued on the corresponding day last year.

Fourteen families yesterday returned thanks for the beautiful blessings bestowed upon them during the past year by placing their names on the list of household effects with the kind and benevolent capitalists (7) of the city.

Yesterday in the Superior court Judge Burleigh in the case of the estate of Mary and John Harmer, issued an injunction restraining the husband from withdrawing property during the pending of divorce proceedings.

Frank J. Fairchild, assignor to C. E. Westlake and H. E. Stevens, has been granted a patent for a liquid rearing apparatus and Frank E. Clark a patent on a folding bed lounge and Elias Skinner a patent on a combined folding bed and chair.

Judge Grove yesterday issued a decree of divorce separating Nellie E. Mac Whorter and Frank E. Clark, and Mrs. Mac Whorter. The grounds for the separation were non-support, and Mrs. Mac Whorter was given custody of the children.

The projectors of the new fair ground and race course have completed the plans and specifications for the new buildings. The design is very handsome, with provisions for a large number of stalls, a beautiful grand stand with an eating house tower and a band stand.

Come In, Soldiers.
Soldiers, Mr. Gibson, the solicitor of pensions, will be in his office, room 2, new Houseman block, all day, for your special accommodation.

His bus and attend the grand fox hunt at Reed's lake today. Take the Electric car and it will get you to the spot. Cars run every half hour.

You have a bad taste in your mouth from too much Thanksgiving clean your teeth with Nabob.

Geography of a woman.
A strange case of spirit photography occurred a few days ago in the city. The lady who was the chief actor will not consent to the use of her name, but she has no question about the fact of the event, and it is made all the stronger by the fact that both she and the photographer are skeptics of spiritualism. She took her position in the gallery, and the photographer threw his cloth over his head to arrange the focus, when, with an exclamation of surprise, he suddenly on down from beneath his clothing and he stared at the lady.

"Did any one pass behind you just then?"
"Why, certainly not," she answered.
He then took the picture and went into his camera room. He came bounding out in a few moments with a white face and strange manner and she must sit again. She complied, and again when he had taken the picture she sensed he could not restrain his terror. His face became beaded with a cold perspiration, his hands trembled so that he could hardly hold the camera. Five times did he take the lady's picture, refusing to give her any explanation of his strange behavior.

At last he told her she would have to go to some other place—he could not take her picture satisfactorily. Then she insisted on the explanation. He refused for a long time, but at last he brought her five plates from the dark room. In each of them by a woman dressed in grave clothes, with outstretched arm and beckoning finger, stood the figure of a person who had been very dear to her, but who had recently died. The lady nearly fainted and denounced the picture as a trick, but was soon convinced that the picture of the photographer did not know it. The photographer developed the plates, and the pictures of the living and the dead are exact and startling.

The lady is not superstitious, but the inexplicable affair has worn on her nerves so as to render her seriously ill.—Cor. St. Louis Globe-Democrat.

DAIRY AND CREAMERY.
EXTRACT FROM AN ADDRESS BY PROFESSOR JAMES W. ROBERTSON.
Some Truths That Fit Other Places in America Quite as Well as Ontario—The Creameries of the United States.

I would have skill applied to the economical production of food, and this is a creamery's association, I would have the members made to know that when people persist in making their butter in small dairies there is a need—absolutely of labor which means an absence of skill, not skill in the mechanical execution in the making of a fine article, but skill in the application of energy. It just takes six times as much labor to make butter in a small dairy as it does in one of the creameries.

If you have a wheel factory in a town that requires the application of six times the amount of labor for every web of cloth that it does another factory, how does the former factory going to stand the competition of the latter? I have no liking for the man who has so little to do as the man who has so much to do. The regular meeting of the St. Cecilia society will be held at 2:30 tomorrow afternoon, in the Ladies' Literary club rooms.

Hartwell C. Mann secured a judgment of divorce against his wife, Cora, and was granted a promissory note before Justice Brown yesterday.

Joseph Neuman, the man arrested at the residence of Link Dolan yesterday, was admitted to bail in the sum of \$500 by Justice Hydrum.

John Brown, yesterday, married George D. Underhill and Eva A. Rose, both of Sparta, and Moses J. Blakely and Lisa C. Fowler, of Alcona.

Attending the Use of
"Nervines"
Seems to be Imperfectly Understood.

What prevents the Bar Wax forming? Why the nerves of the parts have lost their tone.

When the nerves of the part are perfect in their action the Secretions and Excretions are perfect in quality and quantity.

The Nerves are the life of the part or organ. With the Nerves and Brain are perfectly healthy the whole body is perfectly healthy.

The first indication of disease is the giving way of some portion of the nervous system; at such times we usually have pains or nervous sensations to warn us of the danger we are in, but sometimes numbness of the part or lack of feeling in the part which shows the nerves have lost their tone.

When the nerves are in a state to attend these friendly warnings? Certainly not, as these would not cure the disease, but only prevent our realizing the danger we are in, besides weakening the nerves of the part, and so on.

Do not use Nervines!
Nervines cause the loss of tone of the nerves of a weak part, preventing the nourishment of the part or organ, and thereby causing in many instances the loss of the use of the part or organ.

Nervines numb the Nerves and affect the circulation of the blood, causing Shortness of Breath and Palpitation of the heart.

By numbing the nerves of the diseased part or organ the pain is removed, but the disease is established or becomes chronic, or they lose their vital power, or power of action.

In this way Nervines are directly or indirectly a prominent cause of Deafness, Blindness, Turpid Urine, Lung Disease, Catarrh of Spine, Dyspepsia, Insanity, Etc., Nervous Prostration, Paralysis, Nervous Debility and Impotency.

There are many other causes of the above complaints. A most prominent cause is the neglect of treatment when the disease first shows itself.

From whatever cause the above diseases may afflict you, they can be readily and permanently cured by Dr. S. C. CLAY'S "Nervines."

These diseases yield readily to Dr. Todd's remedies, because they are adapted to the diseases for which he prescribes them and leave the parts unharmed and organs in perfect health and nerve power.

Do not use nervines to stop pain!
Because if you do you will completely destroy the Nerve Power and stop the formation of the Secretions and Excretions.

Nervines affect the heart and cause and thereby prevent their recovery.

Nervines numb the Brain and Nerves and thereby prevent their recovery.

We had better lose a few nights sleep and rest, or suffer a little pain, than be permanently injured by a loss of tone of any portion of the Nervous System, and a subsequent loss of the use of any part of the body.

Nervines are in common use does not lessen their injurious effects, and the dear people find out when it is too late that they have not only been cured of their complaint, but they have also lost their health.

To avoid this dreadful conclusion, if you have any Brain or Nervous Trouble or trouble of the secretions or excretions, or any of the above complaints, do not attend immediately consult Dr. S. C. CLAY TODD, the famous specialist in Brain and Nervous Diseases, Rheumatism, Lung Disease, Catarrh, etc., etc.

Sick Man—No; same as ever; tried a new doctor last week; that makes the sixth and my friends say he is the best Family Physician in the state. He gave me something to stop my pain same as the others did, and this morning I have great pain in my back, and I never had that before, and now I am awfully distressed.

Well Man—Oh! Best family physician, he is! Well, didn't you know that such things were common with a family physician is treating you for other complaints. You do not expect Family Physicians to cure diseases that they produce by medicines. You better go to Dr. S. C. CLAY TODD, of Monroe Street, Room 4, Grand Rapids, Mich., and save your time and money; they say he cures such cases immediately.

EMPLOYERS WHO NEED THE MORNING PAPER will find that getting first-class employees. Help wanted ads.
