

HALF A MILLION OF THEM REPRESENTED AT WASHINGTON.

First National Meeting of the New Federation—Famous Leaders in Attendance—The Parnell-O'Shea scandal.

WASHINGTON, Feb. 23.—The first regular session of the women's national council was held at Albaugh's opera house this morning. Delegates representing 40 different societies were seated on the opera house stage. In the introduction of regular delegates Susan B. Anthony, delegate from the National American Suffrage association, was cheered enthusiastically, and when Julia Ward Howe was presented the cheer was followed by the singing of the "Battle Hymn of the Republic" by the ladies on the stage.

SWELLING THE RECORD

MANISTE, Feb. 23.—The dead body of Fred Carlson was found in a clump of bushes on a frozen street under the bridge over the river. The coroner's jury returned a verdict of natural causes. The officers were not satisfied but the man's death was by other than natural causes. This view was strengthened by the fact that only a few days before the man had been known to his brother that he had \$200.

Horrible Confession

FLAMES AT EVANSVILLE.

An Opera House, Newspaper Office and Other Buildings Burned. EVANSVILLE, Ind., Feb. 23.—Fire broke out in the People's opera house at 10 o'clock this morning from electric lights. The fire spread to the building and contents; also Albecker's saloon and the fixtures on the ground floor. The Johns printing office adjoining was badly damaged, by fire. The L. J. Frische's tailor establishment, now lives lost, or serious injury to persons. The opera house, however, was owned by Conroy & Walker. The Johns building belonged to G. P. Sibley of Hartford, Connecticut, and the Frische building to M. J. Bray.

TIBBETS INTERVIEWED

A scribe for the MORNING PRESS ran across Sam B. Tibbets in the train shed while he was waiting for the early train that over the D. The man was bound Mr. Tibbets replied: "I hardly know, but I have to get up and sleep a place, and I am going there now."

When asked as to what he thought of the condition of the cable company had got itself into was a little more communicative and replied that it was only another case of "I told you so." He had read the petition, or as he called it, the "baby" of the company, and he thought that the M. & N. line, in which they acknowledged that they had "left off more than they could chew," and said it must be very humiliating to a man of Jack Bowen's fine sensibilities.

As to the proposed abandonment of the cable in Ottawa and Taylor streets, Mr. Tibbets said that it was not unexpected to him. When he asked for the franchises that he granted on March 5, 1888, he asked for a power line on Taylor street from Leonard to the city limits, intending eventually to extend the motor to the Soldiers' and Sailors' building, and he had no objection to the cable in Ottawa and Taylor streets, Mr. Tibbets said that it was not unexpected to him.

When asked as to what he thought of the condition of the cable company had got itself into was a little more communicative and replied that it was only another case of "I told you so." He had read the petition, or as he called it, the "baby" of the company, and he thought that the M. & N. line, in which they acknowledged that they had "left off more than they could chew," and said it must be very humiliating to a man of Jack Bowen's fine sensibilities.

PUBLIC OPINION.

"I am surprised at the feeling of animosity expressed among the city papers," remarked a New Yorker, who has been in the city for some little time. "In New York you never see anything of that kind. Of course, the papers will not have a bulky, metal, intrinsic value; and this for the same reasons that bonds, promissory notes, etc., are not made of such stuff. As coconuts and breads and shortings, so allow and the dollars are used by us today. With the backing all right—as a great government like ours, or England or France—bills and practical currency are far more desirable and desirable. And if an international compact among the great powers of the earth, each mightily government promises to pay (paper money), should be honored at par, the currency should be made largely silver."

But what should these notes and bills be made payable in, if not gold and silver dollars? Why, in bullion from all the precious metals, and to an amount established by treaty ample enough to maintain the parity of the dollar with the world's probable supply—fairly divided among the representative nations. And why should not standard diamonds, rubies and pearls also be included? Yes, said each government's bonds, at their current value, would be the same as the payment among the sovereign powers of the earth, would be rarer far than revolutions and could be guarded against and provided for by international law. A vote of the national congress would be far more popular than the world's fair, and especially now, when standing armies are about giving way to national courts of arbitration.

THE UNION PROTESTS

A Driver Discharged for an Act for Which He Has Never Been Discharged.

The discharge of George Terrell one of the drivers on the old street car line has created considerable talk among the members of the Street Car Employees' Union. It is a very curious case, and one of the West Bridge street cars last Thursday evening. A driving snow storm made it almost impossible for the single horse drawing the car to get along. The driver, Mr. Terrell, was on a trip, and at that hour the storm was at its best. In order to make any headway whatever it became necessary to drop the scraper, and the horse was left to struggle. The driver, Mr. Terrell, was on a trip, and at that hour the storm was at its best.

When asked as to what he thought of the condition of the cable company had got itself into was a little more communicative and replied that it was only another case of "I told you so." OUR NATIONS' MONEY—NO 2

BY FARMER REYNOLDS. As to demoting both gold and silver—the proposition is a broad and bold one. But nothing seems more certain than that the world of the future will not have a bulky, metal, intrinsic value; and this for the same reasons that bonds, promissory notes, etc., are not made of such stuff. As coconuts and breads and shortings, so allow and the dollars are used by us today. With the backing all right—as a great government like ours, or England or France—bills and practical currency are far more desirable and desirable. And if an international compact among the great powers of the earth, each mightily government promises to pay (paper money), should be honored at par, the currency should be made largely silver."

STRICTLY BUSINESS

NEITHER TIME NOR MONEY WASTED BY THE COUNCIL.

The Street Railway Companies Have Paid Their Asphalt Taxes and Have Ordinances Awaiting the Pleasure of the Aldermen. The council chamber last evening presented one of a metropolitan appearance than usual. The seats in the parquette were all filled and quite a large number of citizens congregated in the committee rooms and in the corridors. The proceedings were watched expectantly by the large crowd and when the "adjourned" announcement was made some 750 started for the door. At 7:30 sharp the gavel fell, Aldermen Sprout and Tatum being the only absentees.

The petition of William B. and Caroline Perkins for redress of the city of Grand Rapids Street Railway Company was referred to committee on ways and means. The petition of S. E. Keeler for repair of Dudley court, as water runs from the street and into the yard, referred to committee on streets. The mayor's nomination of John Quinn as constable of the first ward, under C. Kearney, deceased, was confirmed.

A remonstrance from property owners on Broad street against the opening of Hastings street, from College avenue to Union street, was referred to the committee on streets. The comptroller's report recommending the payment of claims amounting to \$20,000, was referred to committee on ways and means. The petition of S. E. CONGRESSIONAL

Neither Slow Beginning of the Senate

WASHINGTON, Feb. 23.—In the closing brief executive session held. The sundry civil appropriation bill was then taken up, much discussion being had on the Washington post office building. It was determined that it shall not be less than \$10,000,000. The statement was read that some 62 public buildings had been provided for, but there were not a sufficient number of architects to prepare plans and draw the contracts. The bill was then taken up, much discussion being had on the Washington post office building.

THE MORNING PRESS.

Published daily at 7 o'clock, P. M., except on Sundays, when it is published at 10 o'clock, P. M. at Grand Rapids, Michigan.

TERMS OF SUBSCRIPTION: By Mail, payable in advance, one year, \$1.00; six months, \$0.60; three months, \$0.35.

ADVERTISING RATES: Display advertisements at one cent per inch for each 1,000 papers circulated. Local notices at one cent per line.

TUESDAY, FEBRUARY 24, 1891.

AMERICAN COINAGE LAWS: The government is making every effort to secure the free coinage of silver.

There are several very good answers to this; one is that our ratio of silver to gold is 16 to 1 while in Europe it is only 15 1/2 to 1.

Another reason is that very little silver can be spared from any other country, all other nations need the coin.

But the conclusive answer is the experience of the past. This same cry against increasing the coinage of silver has been raised every time a silver coinage has been proposed.

Going still farther the question comes, must our laws on finances be governed by the money market?

But the Republics might make a point in their platform this spring on populism, but the Democrats will be excusable if on that subject they adopt the policy of the boy who had nothing to say.

THE ARGENTINE EXAMPLE: The "honest money" fellows have a ready answer for all advocates of farthings of paper money.

Do these men really believe the citizens of this country are no better than the savages that constitute the population of the United States?

Will it visit the metropolis: The spring opening of Winsor & French is one of the most elegant and elegant apartments in the New.

WILKINS AND WATKINS were old chums and close friends. They had been students and had taken their outdoor course together.

WILKINS had plenty of money, and declined to travel for his health. Watkins, now in the prime of life, is a man of letters.

AN ORGAN COMMEMORATED.

Today the Republicans open the spring campaign, but according to a large number of the county papers the party will be confined to the county.

There is an organ that discourages rich on Southern rebels, Northern copperheads, slave drivers and bulldozers.

The wild and hoary minstrel who is the presiding genius of this singular organ is our lovely old bachelor friend.

There, gentlemen, is an organ for you, and there your ideal organ!

BEKLANA ON SHERMAN: Our Congressman, Sherman, in the house of representatives, has from his speech selected the eloquent closing.

To our old commander the "March to the Sea" is a noble feat.

There are several very good answers to this; one is that our ratio of silver to gold is 16 to 1 while in Europe it is only 15 1/2 to 1.

Another reason is that very little silver can be spared from any other country, all other nations need the coin.

Will it visit the metropolis: The spring opening of Winsor & French is one of the most elegant and elegant apartments in the New.

WILKINS AND WATKINS were old chums and close friends. They had been students and had taken their outdoor course together.

WILKINS had plenty of money, and declined to travel for his health. Watkins, now in the prime of life, is a man of letters.

WILKINS had plenty of money, and declined to travel for his health. Watkins, now in the prime of life, is a man of letters.

HUMAN CARNAGE.

Slaughter of 2,500,000 Lives in Wars of the Last Thirty Years.

It is time to consider the cost of war in men and money, which does not seem, however, to have any effect whatever in the way of preventing the fact of another war.

There, gentlemen, is an organ for you, and there your ideal organ!

BEKLANA ON SHERMAN: Our Congressman, Sherman, in the house of representatives, has from his speech selected the eloquent closing.

To our old commander the "March to the Sea" is a noble feat.

There are several very good answers to this; one is that our ratio of silver to gold is 16 to 1 while in Europe it is only 15 1/2 to 1.

Another reason is that very little silver can be spared from any other country, all other nations need the coin.

But the conclusive answer is the experience of the past. This same cry against increasing the coinage of silver has been raised every time a silver coinage has been proposed.

Going still farther the question comes, must our laws on finances be governed by the money market?

But the Republics might make a point in their platform this spring on populism, but the Democrats will be excusable if on that subject they adopt the policy of the boy who had nothing to say.

THE ARGENTINE EXAMPLE: The "honest money" fellows have a ready answer for all advocates of farthings of paper money.

Do these men really believe the citizens of this country are no better than the savages that constitute the population of the United States?

Will it visit the metropolis: The spring opening of Winsor & French is one of the most elegant and elegant apartments in the New.
