option and Gity Circulation Books MONDAY, MARCH 16, 1891.

MONDAY, MARCH 16, 1991. THE STATE INSTITUTIONS. The books of the sudior general show that its total expenditure for the state house of correction at 100.5 was state house of correction at 100.5 was state house of the state of the heaverse outputs of the its as cor-mons store, but not surpling when it is the average outputs do this is as cor-mons store, with not surpling when its the charged that wandow itswalling expan-res alone wrre over 500. The accound and doings at that prion will bear forther and chorer scatter. It is the charged that the warden supplied the isstution with flur from his own imit is Bockford. This would be available of haw if it was done and the fasts should be known.

be know. The tiems published by the Democraty yesterday in its Lansing correspondences as charged to the state by the warden are movinj justifiable, such for instacce, would be the charge of \$10 for member-aby fn the warden's association. The books charged for no fouthy wardinks the library of the warden's raidences ad make a small matter to compliant of. The books for the guites libraries charged at the gate. The nul picks charged at the gate. The nul picks destace afform the admission feas charged at the gate. The nul picks the state without exirary scales. The charged agalant beso charged to the state. But these are multiples to cary about, the more argues multiples to cary about, the more argues and the matter and thould be fully capated because is in a violation of law. The items published by the Democrat d because it is a violation of law, about this muster was rife as the signing of Warden Watkins last and if true constitutes an offense r it was a disadvantage to the r not. It has been said the flour of third parties, who these per-ers who long themselves to an 1-d norship dishount transmission.

wors were who long themselves to an il-legal and possibly dishonest transaction should be shown up. There is enough in these statements about the jate management of the prison and the condition the present warden says he found it is no justify the commit-tee on the state house of correction to make such an investigation as the Bark worth committee is making of the So

rorth committee is making of the Sol-lers' home massement. At the state prion one clear, certain the state prion one clear, certain state of the state of the state of the state of Solo. There is not the sent authority for any such action, and or that reason kept the 'raise'' a secret. The many dischoret and questionable canactions already made quite plain y more ensuing glaces at the oppin nooky, kept by the management of the splans, the prices and the home show

books, topt by the management of the asyloms, the prisons and the home show clearly that a change in the conduct of the affairs of the state were not made

ay too soon. THE council will "raisle" with the treet railway problem again tonight street railway problem again touight As stated herefore action should not be taken in this matter without the most careful consideration, but inclus the house and whime. Nother should the de-mands of errials sections of the eity be could decide where the flows are to run. when the city as a whole. Let the could decide where the flows are to run. when the city as a whole. Let the could decide where the flows are to run. when the city as a whole, the the backfirth of the city for the hope that they can be sofored, and then grant the farable, putting computing comey can be e-forced, and then grant a franchise, putting computing com-miss on an even footing. If either mpany refaces to accops such an or-manes there are othere who will un-ubbidly soon apply for franchiss on a trents where the old companies are already forfatted their rights

IF a ship canal should ever becom lity across the lower per gan it must necessarily and all question is the Granu. And and all question is the Granu. A ship re bound to say in all candor, a ship a not feasible. The we are cound to say in all candor, a sup-canal as proposed is not feasible. The improvement of Grand river to this point so as to give deep water navigation to the largest vessels of the lakes is feasilargest vessels of the same is found and all the energies and money to be anded by this city on ship canals ald be concentrated on that one idea uld be co
