He Would Not Marry. The Marjolin presents are found of a joke. If they would not always be a kisser. Here is a story, modern at least in its present form, of the taming of a shrew. It is entitled "The Girl Who Did Not Kiss Smokers."

There was once a priest who had a niece who was resolved not to marry till she was asked, but she was often for she had got it into her head that she would not have a man who smoked. Finally a young fellow came and asked for her hand. Her uncle said to him, "Do you smoke?" Yes, sir, he said. "Then my niece will refuse to marry you, for she will not have any one who smokes." But the smiling said, "It is all right. I'll let the smoker alone." The uncle called his niece. "She said yes, and they were married."

In the evening of the day they were married the bridegroom, without saying a syllable to his wife, had a pipe and was soon fast asleep. And in the same way every day when he came home he would take a pipe and was soon fast asleep. Finally a young fellow came and asked for her hand. Her uncle said to him, "Do you smoke?" Yes, sir, he said. "Then my niece will refuse to marry you, for she will not have any one who smokes." But the smiling said, "It is all right. I'll let the smoker alone." The uncle called his niece. "She said yes, and they were married."

When the uncle spoke to the husband, "What is the matter, my son?" "Oh, you are not satisfied with my wife?" "Oh, yes, she is a perfect angel, but I don't know what she is doing with that pipe." "What is the matter?" "She is a perfect angel, but I don't know what she is doing with that pipe."

When the uncle spoke to the husband, "What is the matter, my son?" "Oh, you are not satisfied with my wife?" "Oh, yes, she is a perfect angel, but I don't know what she is doing with that pipe." "What is the matter?" "She is a perfect angel, but I don't know what she is doing with that pipe."

Fought with Jackson at New Orleans. Jose Cardova, who was 103 years old, died because of his old age. He had been working as a laborer up to two years ago, when he quit, because of his old age.

His woeful tale, how he came to town to buy a cloak overcoat and how we sold him an overcoat for \$27.50, which we claim is worth \$50. If we have done such a wrong to this countryman, let him return our coat, and we will cheerfully refund him his money; or if we have at any time misrepresented any goods bought of us in carrying our business, call on anybody let them stop forward. The fact is, the man came to us with his own account, bought a \$5 overcoat for \$27.50 and went on his way rejoicing. Much obliged to the sewing paper for the free "ad" and to the officer who gave the reporter the information. Very respectfully,

HARRY NEWMAN, Manager Globe Clothing Co., 102 Canal street.
