Subscription and City Circulation Books For Sale at the Office of the Press, 100-102 West Bridge Street, by subscription by patrons or others interested.

FRIDAY, OCTOBER 29, 1891.

THE ALLIANCE GROWING.

The reports in THE MORNING PRESS from day to day concerning the Alliance show that it is growing steadily in strength. During the month many state meetings of the Alliance have been held and all of them exhibited certain proof that the organization is growing and fast, surpassing all other farmer organizations.

It is all important that the Alliance should have a grand movement of the industrial forces of the nation come out to the polls in this district on the 3d of November and deposit their ballots for Mr. Hutchins for congress.

Farmers come out on a week from Tuesday and vote for Hutchins, a member of your own noble class, and then by your votes, encourage the rapid development of the great contest next year.

The Republican enemies of Captain Belknap will not be able to win the election, they will defeat him if they can. When men bot a nomination obtained by a majority of three that do not make unanimous they do not put themselves outside the organization.

THE ENEMIES OF BELKNAP. The Republican enemies of Captain Belknap will not be able to win the election, they will defeat him if they can. When men bot a nomination obtained by a majority of three that do not make unanimous they do not put themselves outside the organization.

THE FARMERS' MOVING.

The State Farmers' Mutual Benefit Association of Illinois is now in session. Mr. Tabenbeck, the national chairman of the People's party, is in attendance and has been made chairman of the committee on resolutions.

These resolutions were adopted at the last year's meeting, and its organization will be pushed in the northern part of the state, where it is yet but little known.

THE PEOPLE'S CAUSE.

A LETTER FROM THEIR CANDIDATE FOR CONGRESS.

His Position on the Land Loan and Currency Questions—Ample Reasons for Demanding Reform—Farmers and Factory Men Should Vote Together.

To the Congressional Committee of the People's Party, Fifth Congressional District of Michigan.

GENTLEMEN—In appearing as the congressional candidate of the People's party it may not be out of place for me to set forth some of the reasons that have called the new party into existence and to notice, as fully as the limits of this letter will allow, the remedies proposed for the unjust conditions that oppress labor and all productive enterprises.

This is not an ephemeral movement set up by a few malcontents without any sufficient cause. The declaration of independence declares that "all men are created equal" and that they are "endowed by their Creator with certain unalienable rights, among which are life, liberty and the pursuit of happiness."

How much currency the country needs is not even approximately known. Although the Federal reserve is usually opposed to an unlimited amount, it is evident that those who now fix the limit of the nation in a few hands, are interested in having a restricted volume, not the ones who impartially determine the amount needed, may be gained from an examination of the business conditions of the country.

EDWARD HUTCHINS. The industrial classes of this country have borne onerous evils until those evils are no longer endurable and the movement towards organization among laborers for their own benefit is now being organized.

In entering upon this campaign we may congratulate ourselves that the farmers and the laboring classes of the cities are coming together and working together in the present effort to break the chains of monopoly and the money power that are rapidly aggregating the wealth of the nation in a few hands.

It is the cause of regret that manufacturers do not more generally recognize the fact, and in a spirit of true philanthropy unite with their employees in an effort to remedy the existing evils, rather than engender a spirit of hatred and animosity among their workmen and the community in general.

Everywhere, on all sides, except among a certain class of politicians who are interested in bolstering their political fortunes by making the present outlook appear prosperous, it is admitted that a very unsatisfactory condition of affairs exists.

It is a day near at hand when the government will have a holding of its own for postal business in every village, town and city. That postal business will be more than mailing and delivering letters and papers. There will be a postal savings bank system. That postal business will be free delivery as far as possible wherever there is a post office.

It will cost money. The whole new system of the United States Postal Service as a navy or army, but the people will pay for it. It can be done more cheaply by the government than individuals can get their own mail.

It is fortunate for the anti-Belknap Republicans that there is a People's party ready to welcome them to a home far more congenial than they can find in the Democratic party.

down in the mines, finds his condition growing worse along with his brother miner. The amount of coal that in three months have been cut down by over three hundred mining companies as a result of the depression is estimated at thirty-six large manufacturing establishments organized labor has been banished as such.

Such laws have been enacted that if the workingman resorts any of the encroachments made by the law to retaliate with a boycott he is liable to be arrested, imprisoned and punished as such.

It is considered enough for the ordinary citizen to be "lived" without being able to accumulate anything with his property and to be "lived" by the farmer and wage-worker are accumulating in the hands of a few. The American Economist is authority for the statement that the production of those who own homes in this country has fallen from five eighths to three eighths in twelve years.

The Republican party professes to be fully satisfied and extremely gratified with the present state of affairs. The administration of the Democrats, who have controlled our country for the last fourteen years and the executive department of the government, have made no departure from the Republican policy, but merely quarrel with them.
