

CHICAGO WATER SUPPLY. Proof Positive that It is Governed by the Wind.

CHICAGO, Dec. 2.—The lowering of the southwest wind has materially lessened the danger of a water famine in this city. The water in the lake which has been driven out against the Michigan shore began to turn back almost as soon yesterday as it had risen one foot and three inches at the crib. This was sufficiently high to give the intake pipes a comfortable supply. All the city pumping stations began to work this morning, though the view station is still receiving assistance from the North Side works. While immediate danger has been averted, City Engineer Clark says he will not feel entirely relieved until connection is made with the North shore of the lake. This will be effected in about two weeks, and will give an additional supply daily of 200,000,000 gallons, making the total supply about 200,000,000 gallons. The intake pipes at the crib also have a reputation of yesterday's trouble.

SMOTHERED TO DEATH

Father, Mother and Three Sons Lost Their Lives in a Detroit Fire—Died in Each Others' Arms.

DETROIT, Dec. 1.—The most distressing fire in the city occurred in Detroit since the burning of the Zikden school a couple of years ago, took place about 2 o'clock this morning. Fire broke out in the grocery store of 1215 Grand street, and the fire spread to the dwelling house above, smothered to death Bois and his wife and their three sons, Charles, aged 22, and Jesse and Eddie, aged 12 and 7 years, respectively. Justice Woodman, in his decision, said that the fire started in the kitchen of the dwelling house, and the fire spread to the grocery store. The father and mother were found in the arms of the police and firemen. Their bodies were burned to a crisp. Why they died remains a mystery. The fire broke out on the floor above a window, as if he had realized the danger of the fire, he tried to make his escape by that means.

ANYTHING TO BEAT CRISP?

WASHINGTON, Dec. 2.—The feature of the speaking fight is this: The state is an effort to control the election of other candidates against Crisp. There is a great effort to induce some candidate to retire, but thus far the result is not promising. It is said McMillan is not likely to be a candidate for the office. He is a great favorite of the people, and his name would be a great asset to the party. He is a great favorite of the people, and his name would be a great asset to the party.

CHICAGO BARBERS.

Greatly Interested in the Sunday Closing Bill and the Grand Rapids Convention.

CHICAGO, Dec. 2.—(Wednesday.) The Chicago barbers are very much interested in the account of the proceedings of the barbers' national convention at Grand Rapids. Particularly are they interested in the problem to close all the shops on Sunday. The Chicago union has a Sunday closing law, and it is expected that the Chicago barbers will support the national convention. The Necessities of the Pioneers Mr. and Mrs. Aaron Bennett Temporarily Believed by Kind-Hearted Citizens.

Yesterday afternoon a representative of THE MORNING PRESS called on Mr. and Mrs. Aaron Bennett, the pioneers mentioned yesterday morning as being in distressful circumstances. He told the picture of their distress had not been overdrawn, except in regard to the furniture. Mrs. Bennett is suffering from the effects of a fall sustained eight years ago. Her legs are cramped, swollen and drawn out, and she has a painful condition, and she is perfectly helpless. She cannot speak except in a whisper, suffers terribly and her appearance indicates that she cannot live more than a few days. Her husband is unable to do for her, and she is in a very poor condition for the past four months.

DEADLY DYNAMITE ASSAULTED BY A BRUTE

WHEEK IN NEW YORK. Two Men Caught and Killed Under a Derailed Coach.

NEW YORK, Dec. 2.—The Harlem River passenger train, which left the Grand Central depot at 6:10 this evening met with an accident at One Hundred and Forty-ninth street and Fourth Avenue, in which two men were killed and three others injured. The train was composed of four coaches and an engine. The accident occurred while the train was being switched from the tracks of the Harlem railroad to those of the New York Central & Hudson River railroad. The engine and first two coaches passed the switch in safety, but the last car jumped the track and fell on its side on the New York Central tracks. Two laboring men who were walking on the track were caught and instantly killed. One was identified as William Fleming, a car cleaner, the other is unknown.

THE PEOPLES COLUMN.

The Right "Wonder." Boston Morning Press—"The seven wonders of the world have been before the minds of the people for many centuries; but it is left to the nineteenth century to discover them."

Other "wonders" are entirely of the physical, some freak of physical nature; but the seven that are to be discovered are of the spiritual nature.

Many centuries ago, and as late even as the commencement of the present century, some of them were discovered.

Victor Hugo estimated that since the time of Constantine the church had burned the statues and ornaments valued at 10,000,000 of gold.

That is power but force guided by intelligence. Can intelligence exist independent of spirit?

"Wonder" have mastered the question: What is disease? he would have ceased to wonder that a disembodied soul produced a mortal death.

But far more ancient than the bible do we have history of spirit possessions and the Christ of Nazareth who did or was supposed at that time that he was the "son of God."
