

ROVER CLEVELAND'S ADDRESS AT THE MICHIGAN UNIVERSITY.

A Great Day in the History of Ann Arbor. Twelve Hundred Yelling Students in Line. A Patriotic Speech to His Audience—What He Said.

ANN ARBOR, Feb. 22.—At 11 o'clock this morning a special train on the Michigan Central bore ex-President Cleveland party to this city, escorted by a reception committee of 150 students who had come to Detroit to meet the distinguished guest. A crowd estimated at from seven to ten thousand people were on hand to greet him, composed of students, citizens and guests from all parts of the state. As the train stepped from the train he was greeted by Mayor Daly and the entire force of city officials, the chief executive on behalf of the city presenting to Mr. Cleveland a silver casket containing engraved resolutions extending to him the freedom of the city and making him an honored citizen of the municipality. Mr. Cleveland responded in a few words, accepting the same. During the presentation the Michigan university rally, U. of I. Bah Bah Bah! Bah Bah Bah! Michigan! Michigan! Bah Bah Bah!" was continuously given by the crowd of 2,000 students who had come to the depot to escort Mr. Cleveland to the residence of President Angell.

The procession, headed by a band and two companies of militia, contained over 1,200 students. The buildings along the street were gaily decorated with bunting and were thronged with more than 10,000 visitors, brought in from all parts of the state, besides the residents of the town. University hall seats 3,000 people. Every seat was taken when Mr. Cleveland ascended the platform, and a thousand visitors, brought in from all parts of the state, besides the residents of the town. Mr. President, ladies and gentlemen—Among the few days which have been marked in history, I have never seen a day so full of patriotic sentiment. We are not only commemorating the birth of the great republic, but we are celebrating the day when the people of this country, by their noble sacrifices, entered into the covenant which binds us together as a nation. It is a day which should be remembered by every citizen of this country.

It is because George Washington comes to us today as the father of our country, that we are gathered here to honor him. He was a man of noble character, of high integrity, and of great courage. He was a man who loved his country more than himself, and who was willing to sacrifice everything for its freedom. He was a man who was the father of our country, and who was the father of our country.

Washington had a great deal to do with the formation of the constitution that you see before you. He was a man of great wisdom, and of great courage. He was a man who was the father of our country, and who was the father of our country. He was a man who was the father of our country, and who was the father of our country.

There is great need of educated men in our public life. It is the need of our country, and it is the need of our country. It is the need of our country, and it is the need of our country. It is the need of our country, and it is the need of our country.

When we are told that we are a practical and progressive people, we are told that we are a practical and progressive people. We are told that we are a practical and progressive people, and we are told that we are a practical and progressive people. We are told that we are a practical and progressive people, and we are told that we are a practical and progressive people.

A little reflection ought to convince us that this may be carried much further. It is a mistake to regard sentiment as merely something which, if indulged, leads to a state of mind which is merely contemplation or retrospection, thus weakening in a people the sturdy sense of duty which is the basis of the capacity for national achievement.

These are the elements of American sentiment, and all these should be found in the hearts of every citizen of our country. It is because George Washington comes to us today as the father of our country, that we are gathered here to honor him.

DETROIT, Feb. 22.—The seventh annual banquet of the Michigan club was held in the Detroit tonight. The preparations were elaborate and the attendance was in excess of that of any other year. All day long receptions were held in the club rooms and in Gen. R. A. Alger's restaurant. Some of the most distinguished guests, among them were Gov. Wm. McKinley of Ohio, J. Sloat Fassett of New York, and Senators Dolph and Perkins of Oregon and Kansas respectively.

Senator B. W. Perkins was the first speaker, and he spoke in support of the monetary utility of coinage. He said that the gold coin was the next speaker, and it is safe to suggest that he was the speaker of the evening. The general Alger entertained some of the most distinguished guests, among them were Gov. Wm. McKinley of Ohio, J. Sloat Fassett of New York, and Senators Dolph and Perkins of Oregon and Kansas respectively.

MARGUERITE'S EVENING. She Makes Four People Inane. Owing to a Family Feud. JARROLD, Tenn., Feb. 22.—Julio Vargas, a ranchman who lives about forty miles across the Mexican border, was in town last week and told a terrible story of revenge which had been taken by an old woman in his neighborhood. He said that there had been two families, and this feud drew in several other families until there was a regular neighborhood war. The Pinzons and Morelos were bitter enemies and in a running battle several years ago the two main members of the Pinzon family were killed and left on the field. This caused the feud to gradually die out between the other people who had been drawn into it, and, in fact, the whole neighborhood was a better place for it.

FATAL RUNAWAY. Allen O. Dickerman, the Well Known Roadhouse Proprietor, was Killed by a Runaway Horse. Allen O. Dickerman, proprietor of the road house run on North Canal street by Dickerman & Son, was fatally injured on Canal street yesterday afternoon by a runaway horse. Dickerman and William Connell were driving toward the road house with a heavy team, and when opposite the Oriel Cable Co.'s company's horses became frightened and ran away. Connell was driving the horse, and he said both of the men had been drinking. At the corner of Canal and Coldbrook street the horse was struck by a car, striking on his head. Connell hung to the horses and escaped uninjured. He said the horse was a very vicious and conscious condition by passers by. The ambulance was called and removed him to his home, where he died. The result was that the four are now nursing maniacs, having eaten a decoration of the deadly locust wood.

HER PRIEST SPEARS. Mrs. Montagu is Defended by Her Father. BELLEVUE, Feb. 22.—A decided sensation was caused at Portrush yesterday by the action of the Parish priest, Father McDonogh, who warmly expressed the cause of Mrs. Ann Margaret Montagu, a young lady who had been found in every part of our land, respected for their piety and worth, and who had been found in every part of our land, respected for their piety and worth, and who had been found in every part of our land, respected for their piety and worth.

Father McDonogh declared that the coroner's jury which heard the evidence furnished by Mrs. Montagu, and who had been found in every part of our land, respected for their piety and worth, and who had been found in every part of our land, respected for their piety and worth.

A CORRIDAL INVITATION. Ottawa, Ont., Feb. 22.—The department of agriculture has decided, in view of the success which attended the immigration movement from the Dakotas last year, to renew the propaganda in these states for the purpose of securing more immigrants. PARIS, Feb. 22.—The cabinet crisis and the excited feelings growing out of it shows no signs of abatement. The chamber of deputies met and adjourned shortly afterward. It is rumored that the chamber will be dissolved of god-speed.

ST. LOUIS POLICE STRIKE

THE STREET CAR LINE IS AGAIN TIED UP.

St. Louis, Feb. 22.—The city is alive today with delegates to the industrial convention. There is a great deal of confusion in the streets, and the street car movement will have an undoubted boom. The gathering was called to order at 2 p. m. by Ben Terrell of Texas. An address of welcome was delivered by C. P. Waldridge of St. Louis, and responses were made by E. F. Volk on behalf of the Farmers' Alliance and Industrial Union; T. V. Powderly, in the name of the Knights of Labor, and Ignatius Donnelly. The appointment of committees occupied most of the day. The morning trains brought in a large number of delegates from the West and Southwest, although the total fell considerably below what had been expected by the promoters of the gathering. All the new arrivals expressed themselves as favorable toward the programme for an early nominating convention. The platform to be submitted to the delegates is expected to be adopted at the Ocala gathering. A denial is given to the report that delegates from the West will not get down to real business until tomorrow afternoon.

Under the orders of the mayor, not a policeman was on the cars. President Terrell's speech was well received for police protection and the mayor returned the same answer, that the police would not be put in an embarrassing position by this morning. The representatives of the People's party decided that the party as an organization should take no part in the election, and that the party should be given to the new movement, provided the platform adopted be in line with its principles. The People's party will have seats on the floor of the convention as delegates from the West.

THE KNIGHTS OF LABOR DELEGATES met in conference at the Laclede Hotel at St. Louis, Mo., yesterday. Powderly presiding, and decided to reject the adoption of a platform covering the Mutual Aid society to attend their annual ball was deferred.

AN ALADDIN-LIKE FIND. Prospector Brant Struck Upon a Mine of Gold. CHEER, Colo., Feb. 22.—Today as Prospector Brant was working over a Batchelor mountain he stumbled upon a find which raised him in a moment from comparative poverty to opulence. He had been searching for some time for a mine, and was nearly at the top when he noticed a crevice-like opening close by a boulder. He pushed away the stone and found an opening large enough to admit his hand. He entered the opening, and after a few steps, was within a cavern, the roof of which, vaulted and hanging with stalactites, showed signs of a rich mine. He struck \$10,000 on the ton. This chamber is 30 feet wide by 200 feet long, and is a mine of gold.

INDIANAPOLIS STRIKE

THE STREET CAR LINE IS AGAIN TIED UP.

INDIANAPOLIS, Feb. 22.—Not a street car is moving in Indianapolis today. Mayor Sullivan still refuses to furnish police to assist in running the cars and President Frenzel says that they cannot be moved until protection is given. One effort was made this morning at the Jersey street barn to take out a horse cart as the strikers pushed it back and bolted and barred the door. The company has eight barns, each of which is guarded by fifty to 200 strikers, and sympathizers prevent any attempt to take the cars. The strikers are expected to endorse the strike tonight, thus aligning all the local labor unions with the strike. THE NEW YORK CONVENTION PASSES OFF SMOOTHLY.

THE PLATFORM AGREES WITH THE SILVER QUESTION AND APPROVES PARTIAL LEGISLATION.

ALBANY, Feb. 22.—It was after 4 o'clock before the delegates to the state Democratic convention were called to order, and General Slicks was installed as permanent chairman. In his speech he said they would fight the battle on the issues of '90 and '91 which demanded for the people an open market for the necessities of life, and which pays no tribute nor tax to any privileged class or monopoly. He also demanded free elections in which the rights of the states should not be invaded by federal agents, and an economical administration of the government as defined by the constitution.

The delegates were then elected, Boswell P. Flower held the list as one of the delegates at large. The convention then proceeded to the adoption of a platform to tariff reform and the national platform as framed. The platform is as follows: Eighty-eight gold and silver is the only legal tender; steady steps toward specie payment; no through currency; no debt; no partial legislation and no third term.

Resolutions instructing the delegates to report Hill's name to the Chicago convention were unanimously received and adopted with acclamation. A 5 o'clock hour closed the hall and was introduced as "Our next president." The Cleveland bolters to the number of 100,000, who had been expelled from the convention, were adopted calling a state convention at Syracuse May 31, by which the bolters would be expelled from the bill operation. Primaries for the new state convention are to be called for May 1.

WINE A GOOD THING. hubbub caused by a sermon preached at Beaver Falls, Pa., 22.—A sensation as distinguished from total abstinence, has grown out of a sermon on temperance preached by Rev. J. C. Beagen, rector of St. Mary's Episcopal church. The sermon was so plain and so direct that the scriptures to prove that a temperance use of wine and strong drink was not a sin, but practiced by the prophets, Christ and the apostles. He claimed that the Bible had no such command. Hardly had the benediction been pronounced when the congregation gathered in groups and began to excitedly discuss the views expressed in the sermon. Many of the men present, who were either bitterly condemned him, stating that they would never enter the church doors again, or they declared that they would have better not to have been so outspoken.

A prominent prohibitionist, pale with anger, rushed into the church and bit the minister's nose. The minister declared that it was just such views as was expressed from the pulpit that was the cause of the trouble. The minister, who was a member of the church, declared that the violent member was more to blame for creating the disturbance than the minister for pressing his views. Later Rev. Mr. Beagen was seen at his home by a reporter. He said he was not hurt, but only stated what he believed was right. When told by several members of the congregation that there would be a discussion in the church and perhaps a cohort of inquiry, he replied that he would not be disturbed by the Pittsburgh bishop of the church to-morrow and allow him to pass upon the matter.

A DEVILISH DEED. Horrible Charge Made Against Mrs. Robert Reins. SHELBOURN, Mo., Feb. 22.—It is reported here that Mrs. Robert Reins, living over in Arkansas, was called and hurried to death here. She had been married to a man who lived in neighbors after the child was dead and claimed she had burned her hands nearly off trying to extinguish the fire. It is asserted that the scent of coal oil was in the chamber, and that the stepmother, who is held in custody, will not get out of the State.

DEADWOOD, S. D., Feb. 22.—Mrs. Blaine, who obtained her divorce from her husband in the Hot Springs, where she will marry for several days before continuing her journey to Sioux Falls, S. D. After a few days' rest there she returned to her home in the South where she will quietly rest for a couple of months. Regarding her divorce, she said that she was devoted, she would not say. She denies, however, that she intended to murder her husband, and she will go upon the charge.

ABOUT ADVERTISING. There is no profit in the subscription list of a newspaper unless it is large, much larger than any newspaper has that is published in this city...

The amount of circulation a newspaper has is a matter of importance to advertisers. In fact it is the only subject that concerns them.

An advertiser is a matter of business, it is not favor or at least it should not be. If an advertiser wants to favor a paper as a matter of charity or in approval of its politics...

The shrewd advertiser should not be influenced by like or dislike, by love or anger, in making advertising contracts, because that is not business.

The advertiser should seek the paper with the largest circulation, because that paper can bring him the most business and always at the lowest rates in proportion to its circulation.

This matter of circulation being of the greatest consequence to advertisers they should be sure of the representations made by advertising solicitors.

The Morning Press is willing to take the terms herein set forth. It will guarantee to advertisers a circulation of 6,000 at present and will make contracts for the year on that basis...

The OHIO GERRYMANDER. Notwithstanding the strong denunciation of gerrymandering by President Harrison in his last annual message his supporters in Ohio are at it to a degree that shames all previous efforts of that kind...

A redistricting bill has already passed the lower house of the legislature by a party vote that is intended to make sixteen out of twenty-one districts Democratic. By this bill it will only be possible for 400,000 Democratic voters of the state to secure five representatives in Congress against sixteen to 420,000 Republicans.

Mr. Harrison should write a letter to his Republican friends in Ohio and warn them against the dishonor of such rascally proceedings.

The largest gathering of representative workmen ever seen on this continent is assembled at St. Louis today. The character of this convention will impress itself upon the minds of all and give assurance of a political reform at the polls next November.

Don Hixsonman is in Detroit and will shake with Grover. Great heavens, what are we coming to?

AGAINST ALGER. The Allegan Gazette declares squarely for the renomination of President Harrison and against the pretensions to a nomination by Alger. The Gazette says: "It is refreshing to have a Republican paper in Detroit that contains something other than innuendo, calumnies and familiar arguments; but when the Tribune coolly assumes to speak for the whole state and claim to have the unanimous sentiment for Mr. Alger, it is impertinent as well as incorrect. The very terms of the election are intended to base its claim, which were mainly with a lot of Detroit politicians (a carefully chosen) doubt, show strong sentiment in favor of President Harrison, despite the local pressure."

President Harrison has well earned a renomination, and to refuse it to him would be to deny to the people of this state an act of injustice which the shame would never permit; and to nominate Mr. Alger would be to invite disaster if not to deserve it.

The Gazette represents the real sentiment of Republicans in the state not only as to Alger but as to Grover. The latter has no record that gives the least foundation for his absurd presumption in becoming a candidate before the Republican national convention for the presidency. His record on the contrary is against him. It is shown in the shameful doings of his supporters at Chicago four years ago as exposed by Sherman and his connection with the Diamond match monopoly denounced by the Supreme court, and by Mr. Alger.

The worst part of his record is the blank it presents in statesmanship or intellectual effort of any character whatever.

The reception to ex-President Cleveland in Detroit tonight will be the largest of the kind ever known in this city. Men of all parties will unite in paying their respects to Mr. Cleveland out of admiration for his clean public record and brave espousal of what he believes to be right. These tens of thousands will be in Detroit today with one goal in view. They will not go there to approve the policy maintained by Mr. Cleveland, there will be many in the immense procession who do not agree with him at all, but they will come to witness the kind of public servants the nation needs in all parties.

The California delegates to the St. Louis convention are dead set against the nomination of Leland Stanford for president. The voice of the Californians in the national nominating convention won't amount to anything if they are not in the fight at all. The choice of such states as Michigan, Minnesota, Nebraska, Kansas, North Carolina, South Carolina and Georgia should count and probably will.

GET READY TO SNEEZE. As Long as Electricity is Used We'll Have the Grip.

LANSING, Feb. 22.—In view of the fact that seven degrees of ozone was noted in the atmosphere yesterday, Secretary Baker of the state board of health predicts an increase of influenza, the observation of twelve years showing that disease increases with the increase of ozone.

The amount of the latter with which the air is charged on the average is but three and one-half degrees, while it seldom reaches six degrees. The extensive increase of ozone which is generated by the force of light is destroyed by the latter. Hence he predicts an ever increasing amount of influenza, February and July being the most prevalent periods when it will be most and least prevalent.

Women's Convention. While speaking of social civilities, it would perhaps be in accord to speak of the courtesies shown to women in the street cars. It is a lamentable fact that both men and women of good breeding and culture frequently leave these qualities at home when they enter a street car. If a man elsewhere strives to do the right thing at the right moment he will not more allow a lady to stand in a street car than at a concert during church service. A man will always give his seat to a lady with whom he is acquainted, and why, if the proper thing to do in her case, if it not proper thing to do at all times? A fact generally admitted is that it is an act of simple courtesy, and that the woman who receives it as such and acknowledge the gift by the word of graceful thanks instead of receiving it as their due, there would be no discussion of the matter. It is of course tiring for a woman to stand throughout a journey, but when a friend or a greater acquaintance on the street car gives up his seat to her, she should receive it as such and acknowledge the gift by the word of graceful thanks instead of receiving it as their due, there would be no discussion of the matter. Have we not all noticed and condemned the unwholesome selfishness of some women in railway trains. There is nothing so common as to see a woman scrambling for places, subterfuges employed in order to secure seats for friends or a greater acquaintance on the street car. It is a matter of convenience and comfort. It may be that these same flaws are to be detected in men, but as a rule women have no right to be so inconsiderate—Philadelphia Times.

Successful Co-operation. The Junction City Co-operative club, known as the "Bellamy club," has just entered upon its second year with a full complement of members, most of whom have been with it from the commencement.

This club was organized to conduct a common kitchen, in which all the family cooking was to be done away from the homes of the members. There are forty-four families belonging to the club, all of whom express their satisfaction as to the results of their experiment. During the year that the society has been in existence the sum of \$4,200 has been expended for table supplies. All bills have been paid as fast as contracted, so that debts have been carried over by the officers of the society all serve without pay, having the work of supervision so well distributed that the task is not most for any one. The secretary, Mrs. M. E. Clark, is most enthusiastic over the result, and predicts a prosperous future.

It is a well known fact that this train service, which is unexcelled, there are no other hesitate to take the Michigan route if they desire first-class service.

DETROIT and return on the above occasion. Tickets will be issued on Feb. 22nd for the Michigan Club Banquet, and 23d for the reception, good to return Feb. 25th at \$4.50 one fare for the round trip. This company will also sell round trip tickets to Detroit for \$2.25 good to return February 23d at one fare, \$3.85, without change of cars. For the Michigan Club Banquet, the system which he has upheld has been able to attract the best men out of the Republican party or has discouraged them from taking active part in public life. Because he has placed men in office or position so hampered by pledges to him that they cannot faithfully perform their duties to the state or to their party."

A GOOD CHANCE. As announced before, we are selling our best Overcoats for \$15.00. This means that Overcoats, the finest that skilled tailors can produce, formerly sold at \$30, \$28, \$25 and \$20, are now going from our store for \$15.00. People who see these Coats appreciate this Sale, too. For instance, in a number of cases, customers for other articles, and having no intention to buy, will ask to look at our Overcoats simply out of curiosity and in a majority of these cases an Overcoat is sold. People say that it will pay them to buy the Coats for next year's use. This sale gives you a good chance to get your choice of the Finest Overcoats for the price of poor ones. We are selling a line of fine JERSEY OFFICE COATS at \$3.98, worth \$6.00, and a line at \$1.87, formerly \$3.00. GIANT CLOTHING COMPANY.

DON'T READ THIS IF YOU TRADE ON A BOOK --- IT WILL MAKE YOU SICK. The first item is getting to be a "chestnut" to those who cannot compute. We have sold 12 carloads and it has given complete satisfaction, and we continue to sell.

REV. DR. B. F. DE COSTA. Extracts from His Sermon of Jan. 10, An Episcopal View.

The right of free speech is one of those rights that in our land may not be denied. One often wishes that this sacred liberty might not be so greatly abused...

Whatever is of God must stand. No revolution in human opinion can impair the existence of that which is divine. Truth is eternal. It can suffer no harm from the most potent and impious human hand.

Let the best theories, therefore, rage and the ablest shoot their venomous shafts. This infidel is not paid to preach the gospel and is guilty of no breach of contract. Some go so far as to say that he holds it for Satan and is honorably doing the best he can for his client.

Let me begin this subject in a somewhat unusual way, and speak of the harm that has been done in connection with the power to do good. This is explained by the fact that every good that ever came into the world has been hated. The power to do good is inseparably linked with the power to do evil.

As weeds spring up in the track of that which is called civilization, so abuses follow in the track of Christianism. Why is it that in Christian lands we find the highest civilization and intelligence. How did Christianism find man? In a state of barbarism.

It civilized him, educated him, mantled him with the royal robe of liberty and crowned him like a god. Mr. Ingersoll says "the church opposed science." Every discovery in science has been hindered in art has been the work of Christian men.

Mr. Ingersoll says that it was "exceedingly unfortunate" for me that I spoke of slavery. Christianity has been instrumental in securing the abolition of slavery from Christendom.

It has had its share in the progress of the human race. It has been the cause of the most magnificent achievements of the human mind. It has been the cause of the most beautiful works of art.

It has been the cause of the most noble and heroic deeds of the human race. It has been the cause of the most beautiful and sublime works of art.

ers of New York, the Puritans of New England, the Pilgrims of Massachusetts and the Scotch, Irish and Germans of Pennsylvania, without those Christian patriots America in independence would have found a grave instead of recognition before the world.

Why is it that in Christian countries you find the greatest amount of physical and intellectual liberty, the greatest freedom of thought, speech and action? This is true of all the nations that are independent, the freest of them all.

There is no liberty where there is no Christianity, and if liberty can be found only in those countries where Christianity has a dominating influence, does not logically follow that Christianity and liberty are friends.

Deserving Praise. We desire to say to our citizens, that for years we have been selling Dr. King's Discovery for consumption.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption.

Beulah's Anemia Salve. The best salve for the world for cuts, bruises, scalds, lacerations, salt rheum, fever sores, letter, chapped hands, chilblains, corns and all skin eruptions.

Cleveland's Reception. A public reception was tendered by the citizens of Detroit to ex-President Cleveland. The notable event will take place at the Light Infantry armory.

Why do you spend your money foolishly? Why don't you buy some face cream while the prices are down at Ten Hope's, 134 Monroe street.

What is Greeney? It is the very best hair and scalp preparation for the price. Try Jackson's minuties, only 50c doz.
