

Y. M. C. A. ASSOCIATION

Report of the Secretary Showing Some Things Which the Association Does Not Do—Out and Description of the Elegant New Association Building.

The twenty-sixth anniversary of the Young Men's Christian association was celebrated last night at Hartman's hall.

The programme was opened by an eloquent prayer from Rev. S. H. Cobb, after which the audience joined in singing the hymn "Power of Jesus' Name."

SECRETARY'S REPORT

In seeking for permanent success we direct our attention to human nature rather than human condition.

It takes a wise and prudent man to foresee the evil and provide against it by preventive means.

Who will say that we have not started our work on right principles which, if backed by sufficient means and given to their utmost, would prove a remedy for the greatest evils that afflict modern society.

THE LITTLE SARAH

Little Sarah. The galleries last night were somewhat obtuse and the management would please the patrons.

The World's Museum will open today at 12 o'clock, noon. The stage show will begin a few minutes later and continue without intermission or dropping the curtain until the closing in the evening.

The Royal Japanese troupe of wonder workers have been specially engaged to appear during the week. They are a show in themselves.

Barlow Brothers' Minstrel will parade today at noon and this evening will appear in their gorgeous finery at Powers' opera house.

Manager Smith has secured a show of unusual excellence for the patrons of his cozy resort this week in the Bell Brothers' vaudeville and concert company.

The People on Shawmut Avenue Have a Valuable Property. The owners of property fronting on Shawmut avenue, like the prophet of old, think they do well to be angry.

All winter, whenever soft weather has prevailed, the space between the tracks of the street cars has been mired in the tracks.

Unless there is something done at once the street cars will be a constant nuisance to the city.

THE GROWING GOLDEN EGG

A little lack of the tragedies to follow. In the third act La Tosca is mentally tortured by Scarpia, the agent of the police.

WORK FOR CONGRESS

Washington, March 6.—The most important of routine measures which congress will be called to legislate upon for the discussion of these measures of more than national importance and on which the platforms of the national parties are based.

Pursuant with a notice given last week the consideration of the free coinage of silver will be called up Monday.

It is understood that the judiciary committee will tomorrow resume consideration of the bill for the appointment of judges without any reference to the presence of Senator Hoar.

The Otis Loan Bill. A dispatch from Washington says: "The creation of a national union loan fund is the object of a bill introduced in the House by Representative Dins."

A SERIOUS SITUATION

England Refuses to Continue the Modus Vivendi Pending Arbitration—Unless Satisfactory Arrangements are Made It Will Be Totally Annulled.

Washington, March 5.—The Behring Sea matter has assumed a most serious phase, and public officials make no attempt to disguise their grave concern at the course which it is developing today.

It is contended by experts that the opening of Bering Sea for one season in the manner suggested would result in the speedy extermination of the seal species, and that there would then be no seal to exterminate.

The news from British Columbia that the sealing fleet is making preparations for an early start to the coast is a serious season is confirmed at the state department.

**THE GRAND HOVEN.**  
 The Grand Haven Herald says the furniture company of that city "could do a larger and more profitable business if they were adequately supplied with that capital which so many of our capitalists decry." The Herald cannot point to one labor organization in all the land that has decided capital. Labor knows that capital is its necessary hand-maid and that it must be actually and justly a robber. Labor is contending for an equal footing with capital in the political economy of this nation, and it will go to the hand of the law to get it. It will not be deterred from its purpose by false accusations and slanders. This battle is not for anarchy, socialism or communism, it is for equal and exact justice. It is for a proper realization of all classes of the blessings of free institutions.

**DEMOCRATIC OFFENSE.**  
 The Democratic leaders in the city are busy getting it out that their party will not be worse any man nominated by the People's party. If the People's party would nominate a man now in the line of popular Democratic candidates that man would be refused admittance to the conference of the Democratic city convention should be accepted, so it is said by no less a personage than Mr. Effe, the chairman of the Democratic congressional committee and clerk of the Superior court. He explains that the state of the Democratic mind is not what he prefers but it is as he found it upon careful and exhaustive study.

**POPULAR ECONOMICS.**  
 [BY NEDAN THORNTON.]  
 Clubs seem to be tramping this winter. We've got the Jefferson club, the Lincoln club and the Unity club. I had heard about the Unity club and last Tuesday night I went to see it. I went to see the evening session and was surprised to find that the club was not what I expected. I expected to find something about a lot of cranks or anarchists or something of that sort, but instead I found a very respectable and well-to-do group of men and women. **A WRECKING TRAIN.**  
**HOW RAILROADS OPEN THE LINE AFTER AN ACCIDENT.**  
 The Train Is Made Up of a Locomotive, a Derrick Car, a Box Car with Heavy Appliances, and a Toot Car—These are the cars that are used in wrecking. "Accident to train No. 10, engine 66, Engineer A. Jones, Conductor L. Watson."  
 It is a dispatch like the above that the superintendent of a railroad reads most. He may have provided a most careful system of signals, may have perfectly equipped his men and competent workmen, yet, despite all these precautions, wrecks will occur. Trains will collide, tracks will be blocked and traffic stopped some-where on the line.

Mrs. Margaret A. Edison invites all ladies in Grand Rapids who are suffering from chronic nervous ailments, exhaustion of the nervous force, and all kindred affections, to call on her at her residence, 155 Barclay street, where she is prepared to give them her treatment, consisting of vapor, electric, sitz and other baths, together with massage, unguent, salt glow, fomentation, hot and cold packs applied to the nerve centers. She also has a fine battery with which she applies electricity scientifically. Her system is highly commended by many prominent physicians, and in no wise interferes with their treatment.

THE VANDERBILT LITANY.
From brothers-in-law who don't know their business; who undertake to manage newspapers in our interest, and make themselves ridiculous, who pretend to be pious, yet indulge in profanity in cold type; Good Lord, deliver us—Metropolis.
