

THE HOWLING WINDS

CONTINUANCE OF THE TERRIBLE GALES AT THE WEST.

Snow and ice in the two Dakota-Baltimore Rocked and Traffic Suspended—A Shower of mud in Kansas—Cyclone in Illinois, Iowa and Missouri.

REO LAKE FALLS, Minn., April 5.—The storm is growing more violent every hour. A furious blizzard is raging north, and the wind sweeping over the prairies at a tremendous velocity, accompanied by volleys of drifting snow. Over a foot of snow has fallen. Many have left their supply of wood dwindling during the recent warm weather. If many fires are not sacrificed it will be providential.

ST. PETERSBURG, S. D., April 5.—The severest storm that has ever visited this section is raging here. It commenced with rain and is increasing in fury. About noon yesterday the rain changed to a steady snow, and with high wind which reached a velocity of 40 miles an hour. The wind driving the snow at hurricane velocity. All train service on the Northwestern road is abandoned here. Snow west here is drifted to enormous heights. Only four inches of snow on the ground has fallen. The oldest citizens say this is the greatest fall of moisture for this season of the year since the early thirties. Farmers and business men are unable to conduct any business. The wind driving the snow at hurricane velocity. All train service on the Northwestern road is abandoned here.

KANSAS CITY, Mo., April 5.—The through express on the Union Pacific, which reached here at 10 o'clock this morning, had a most remarkable appearance, being covered with mud to the depth of fully six inches. The engine and coach windows were so plastered with mud that they were almost unrecognizable. The train ran into a shower of mud which came down in great quantities from the clouds. It is supposed to have been taken up by a water spout.

CHICAGO, Ill., April 5.—The storm yesterday drifted cattle in droves into the Platte river, where many killed to death. The loss will be heavy. BIRMINGHAM, Ala., April 5.—A cyclone again damaged the Presbyterian and Methodist churches, and several residences, and totally demolished a number of houses in several places. A number of persons were injured. A cyclone yesterday destroyed a number of houses in Cairo, Mo. No one is reported seriously injured.

KIRKSVILLE, Mo., April 5.—A cyclone again did much damage to the houses of the Kirksvillians. The front of the First National bank and the fronts of three stores on the East side of the city were blown down across the street. It passed on east, wrecking chimneys, porches, etc., and did much damage to the houses of the town in the row, which it completely demolished.

CHICAGO, Ill., April 5.—Another heavy storm, this time accompanied by floods in some places, caused damage to property in the West, Northwest and South-west yesterday. The territory covered by the same was the same as that of the one of last Friday, and although the storm was less disastrous than those of the earlier fall, it was learned to show that the visitation would be a frequent one.

As before, Kansas bore the brunt of it. At Cherokee there was a genuine cyclone. The wind blowing from the southwest, it was accompanied by a deep rain, and as it drew nearer it could be seen turning and twisting with terrible velocity. It traveled in the same direction, and barely missed the town, passing one mile to the southwest. It did much damage to the houses of the town, and fatally injured two others. The dead are: Mrs. B. Lawrence, 70 years of age, who was struck by a tree and killed; Mrs. Perry Nixon, 70 years of age.

BEID'S SUCCESSOR. A report that Editor McMill will be made a Minister of State.

MEXICO'S RICH OIL MINES.

Continued from American Capitalist to work the mines.

DURANGO, Mexico, April 5.—Concessions have been granted by the general government and supplemented by other concessions by the state government to a party of Americans who will begin to work the famous oil mines of this state. A company composed of capitalists from St. Louis, Chicago and Philadelphia has been formed for the purpose, and will be ready to begin work in a very short time.

This valuable bed of beautiful stone has been known to the people of this state for hundreds of years, and has furnished many fine specimens which have been sent to the capital and the United States for polishing, but there has never been a regular effort to get the stone into market. It is the richest of the great thousands of acres of land is done for the purpose of developing the country.

There are old quarries all over the vast mountain which is almost one solid mass of granite. The quarries are of hundreds of years ago. Some of the quarries are known to have been worked by the ancients. In several of them are found old implements which were used before white men came to America.

In one of the minerals to be seen a small quantity of the same stone is said to have been carved out over 200 years and to have been carved out by the ancients. It is said that some of these quarries were worked by the Spaniards, and that they were worked for hundreds of years ago. Some of the quarries are known to have been worked by the ancients. In several of them are found old implements which were used before white men came to America.

It is expected that a number of other men will get their stocks this week, and that the price will be raised to make it a center of speculative and investment activity for not only the Mesas and Vermilion ranges in Minnesota, but the Goebels, and the other ranges in Michigan, and the Thunder Bay silver and lead district on the coast of Lake Superior.

WASHINGTON, April 5.—Senator Sherman, from the committee on finance, today reported adversely to the senate a number of alliance financial schemes. He included in his report a bill for paying pensions, setting idle laborers to work and preventing crime among the poor and vice among the rich, and the undue influence of alien labor by a graduated system of taxation. He also reported a bill for providing a principle of taxation which it was not in the power of the state to enforce.

WASHINGTON, April 5.—Senator Sherman, from the committee on finance, today reported adversely to the senate a number of alliance financial schemes. He included in his report a bill for paying pensions, setting idle laborers to work and preventing crime among the poor and vice among the rich, and the undue influence of alien labor by a graduated system of taxation.

WASHINGTON, April 5.—There is a report in circulation here late tonight to the effect that President Harrison had practically offered the post of minister to the Chicago Tribune. The Chicago Tribune, which has just been made vacant by the resignation of Whitlaw Reid.

WASHINGTON, April 5.—The election passed off quietly. The result was a success for the Citizens' ticket, and the Republicans were routed. The result was a success for the Citizens' ticket, and the Republicans were routed.

PULP SHAPED (CIRCULAR)

THE ILLINOIS WORLD'S FAIR BUILDING DESTROYED.

A Regulation Cyclone Early Yesterday Morning Dashed the Partially Finished Building to the Earth—Some Other Buildings Were Also Destroyed.

CHICAGO, April 5.—At ten minutes before 7 o'clock this morning, while the wind was blowing a gale from the southwest, one of the watchmen stationed near the Illinois state building, adjacent to the Fifty-ninth street gate of the World's fair grounds, turned the corner of the wooden building occupied as an office by William Hixley & Son, contractor for the Illinois building, and was suddenly picked up by the wind, and dashed to the ground. He was killed, and his body was blown to the top of the building, and fell down the side of the building, and was killed.

An investigation showed that a large portion of the main dome of the Illinois building had been blown down, and in the fall it had carried away terraces, scantlings, trusses and a large section of the south brick wall. Much of the flooring was damaged and broken by the wind, and the roof was blown away.

The Illinois building was not the only structure to be destroyed. The little funnel-shaped cloud, it must have started from the southern end of the main dome, and blown northward, and destroyed the building.

ABYSS OF THE TRUST. Governor Abbott Declines to Sign the Bill Legalizing the Reading Comb.

CHICAGO, April 5.—The coal trust bill, which was passed by the Illinois legislature, and which was vetoed by Governor Abbott today.

REPUBLICANS AND DEMOCRATS COMBINE. SENATOR, April 4.—Sparta township is called to order to receive the franchise for the general state exhibit.

WASHINGTON, April 5.—There is a report in circulation here late tonight to the effect that President Harrison had practically offered the post of minister to the Chicago Tribune.

WASHINGTON, April 5.—The election passed off quietly. The result was a success for the Citizens' ticket, and the Republicans were routed.

THE TOWNSHIP ELECTIONS.

Most of the Kent County Precincts Are Republican.

Lowell elected supervisor to the township Republican ticket, as follows: A. D. Eddy, clerk; 1056; A. L. Coons, treasurer, 101; Joseph Clayton, justice, 133; W. H. Murray, assessor, 100; J. W. Moore, 105; E. C. Curtis, drain commissioner, 121; balance of ticket ranged from 70 to 143.

In Gaines Lewis A. Solorhan, Dem., was elected supervisor by 13 majority. The balance of the officers are Republican by majorities ranging from 13 to 41. Ad. elected the entire Republican ticket by pluralities ranging from 6 to 62.

At Sparta the entire Republican ticket was elected, majorities ranging from 14 to 53, as follows: Supervisor, L. E. Paige; clerk, E. G. Richards; treasurer, August A. Johnson; justice, Allen E. Johnson and E. W. Johnson; assessor, Elmer Anderson; school commissioner, J. W. Hallowell; members of board of review, W. H. Allen and Andrew Youngquist.

Alpine elected the entire Democratic ticket by the following majorities: H. H. Hill, supervisor, 33; C. E. Creveling, clerk, 35; George Stevens, treasurer, 37; W. S. Sear, drain commissioner, 37; P. Klenk, drain commissioner, 37; J. P. P. Jones, justice, full term, 27; J. E. P. Dowling, school inspector, 39; Hiram Nelson, board of review, 27; J. W. Hallowell, board of review, 27; J. W. Hallowell, board of review, 27.

PINES FOR THE PRISON

A HORRIBLE CRIME COMMITTED BY TWO FARM HANDS.

A Dear Tale Bound, Gagged and Brutally Outraged by Two Young Men Who Will Soon Fill an Aching Void in Prison—Lynch Party Narrowly Escaped.

LANSING, Mich., April 5.—James and John Pine were jailed here this evening on a serious charge. The prisoners are brothers who have been for some time employed as farm hands by Anthony Marzon, a Mendota township farmer, in whose family Paul Albright, a deaf mute 36 years of age, is a domestic.

It is alleged early last Saturday morning the Pine boys were summoned at Marzon's place by an entrance into Marzon's room, and after binding and gagging the unfortunate young woman, pushed her into the jail and immediately after committing the crime, and when their victim succeeded in arousing the attention of the warden.

APRO-AMERICANS. They Met in Convention and Got Down to Business.

LANSING, Mich., April 5.—Ninety delegates, representing the counties of Saginaw, Ingham, Calhoun, Washtenaw, Jackson, Kalamazoo, Livingston, Bay, Oceana, Lenawee, Genesee, Kent and others, attended the convention of the Michigan A. P. Convention, held here today.

THE IRON MONUMENTS. Are No Good on a Dark Night When a High Wind is Blowing.

On a moonlight night when the wind goes to a high velocity, all the lamps on the iron monuments of aldermanic stupidity are lighted, the tower is in no doubt a success, but on dark, stormy, windy nights, such as the one of last night, the monuments have shown that the elements are too much for the tower system.

HER SLACK WIFE LOVER. Mamma Slat the Mute, But the Oldy Thing Did.

LANSING, Mich., April 5.—Ella Diamond, wife of the late John E. Diamond, was engaged to marry the late John E. Diamond, but she was engaged to marry the late John E. Diamond.

WEDNESDAY, APRIL 6, 1910.

THE PEOPLE'S PARTY VOTE.
Last fall Mr. Moulton ran ahead of his ticket for police court judge because of his own strength and the weakness of one of his opponents. His vote of 3,014 was not the real strength of the People's party. The vote for Mr. Hutchins was the real measure of the People's strength, which was 2,575. The loss of the People's party shown in this election by comparison with the vote of last fall is about 600.

This is quite a loss, but it is represented by the fact that the ticket of Mr. Saunders and McBride had in the Fifth ward. No doubt some few People's party men voted the Republican ticket in order to make sure of the defeat of the Democrats in the Fifth ward, thereby giving to the Eastman regime at police headquarters. Others preferred to work rather than lose the time it would cost them to stand up and be counted. But any one who supposed the People's party would lose just a few votes, such as a mistake as if they had fallen down stairs.

Circumstances may do away with the necessity of a People's party before the 4th of July, such as the election of a western man for president by the Democrats on a free silver platform. This is not likely and the People's party will have to stand for its own doctrines on land, money and transportation. The People's party is not limited to Grand Rapids or the state of Michigan; it is a national party. It is not likely to weaken and collapse as some think because it has fallen before it in this spring election, which was of merely local interest. If it has no principles worth contending for it would surely collapse before the fall election, 1910 majority. If it has principles it will live, however false and indifferent men may be.

THE PROPOSED TROLLEY.
Detroit Free Press: There is something remarkable in the readiness with which some people manifestly are ready to surrender the right to introduce a dangerous and disgusting system of traction simply because it promises rapid transit. The same class would probably allow the company to run its wires by steam if it picked itself up and ran more rapidly than it now does. It is not wise. Rapid transit is a good thing and a desirable thing; but it is quite possible to pay for it than the city can afford. There are many ways in which it can be afforded if it gives our grand and beautiful avenues to the poles and wires, with its nuisance to property and life. The matter has practically been referred to the council by the board of public works, and that body can well afford to put in a little time in carefully inquiring into the new scheme, and to pay for rapid transit with the most judicious system known.

THEY STAYED AT HOME.
From 9 o'clock to 5 o'clock yesterday afternoon the city was almost deserted. With the exception of a few hundred this host of voters were indifferent to the result.

About three-fourths of these stay-at-homes were Democrats and an inclining vote to the People's party ticket. The Democrats were disgusted at the result of the men they had voted into office and were reconciled to a change for the purification of the city and the betterment of the People's party believers hesitated and there was want of organization and money to secure their attendance. Besides, very few had any faith the party could carry the city and would not be so tired to work and gain \$1.25 rather than go to the polls merely to stand up and be counted.

This is not the right way to view the subject, but it is the natural and usual way. It is a known fact that American voters have to be encouraged with the hope of success. The Republicans were confident of a plurality and thus stimulated the stay-at-homes to vote. The Democrats were not either of the other parties. If there had been a Union ticket up against the Republican they would have been beaten 3,500 votes, because the certainty of a Union ticket would have attracted the Republican voters and kept them from the polls, while, on the other hand, the Union forces would have been aided with the certainty of victory and would have voted to a man.

MR. GUNDRUM'S MISTAKE.
Detroit News: Mr. P. Gundrum of Escalante, Cal., who writes that he has taken and read the News since it was first published and agreed with it. He is a man of no small knowledge except one, "viz, Mr. George's single tax law," need not distress himself on this subject. He is a man of no small knowledge except one, "viz, Mr. George's single tax law," need not distress himself on this subject. He is a man of no small knowledge except one, "viz, Mr. George's single tax law," need not distress himself on this subject.

It seems that there is something commensurate about this "peculiar theory of the single tax" of Henry George. It is not surprising that Mr. Gundrum fell into the notion that the News is a Democratic paper, as indicated by Henry George. It has talked that way quite a little of late and these nice distinctions that it makes are difficult to understand.

The greatest loss suffered by the People's party in the Fifth ward where Mr. Shanahan's personal strength won the vote of hundreds of workmen, was that the Republicans had some men stronger than the People's party candidate. Mr. McBride had endorsed himself to workmen by his brave stand for the cause of union labor, and the Republican candidate who had entrenched himself in the place by his long service and many campaigns. These men and influences demoralized the weakly organized forces of the People's party in that ward and weakened their strength.

The new mayor has not a happy lot before him. The council is a tie and he cannot get his political party to support him. The Democrats will hold over unless he can secure the aid of the People's party alderman, which is not likely, because they owe their election to Democrats uniting on their ticket. His choice by the People's party, the mayor will have the annoyance and responsibility of office without its sweets. All that the Democrats have lost is very small compared with what would be defeated next year. Their bad luck came at a lucky time.

"The People's party did it" is the wall of the Evening Leader. With the leader please explain what defeated its party in the Democratic stronghold of Jackson, Saginaw and Lansing? When the Democrats find out what really hit them they will easily explain the result. The three-year term of office will also have some light on Muskegon and many other precincts where they expected to lead both their own.

CURRENT STATE NEWS.
Diphtheria has now broken out in the agricultural college.

The county seat of Arenac county has been changed from Oshtemo to Standish.

Serius Wood of Michigan, was elected out of \$215 by discounting a bond.

Chleboyan tug captains almost unanimously predict that the first steamer will arrive there on April 10.

The trial of Robb and Vance for shooting at Mayor Hobbs of Benton Har.

Rev. Clarence T. Brown began his pastorate of the Congregational church of Grand Rapids, Mich., on Sunday, April 2, by two appropriate sermons.

George Griswold, the oldest constant resident of Leelanau county and a prosperous farmer, has sold his farm and will quit the county.

The woodmen are returning from the camps, with pockets full of money, and nearly every paper in the lumbering section reports one or more robbery.

Cheboyan is split over the question whether the city should purchase the electric light plant, a private concern, at a cost of \$9,000, or spend the same amount on street cars.

IN THE COURT.
Judge Adair yesterday in the divorce case brought by Julia E. Purnell against Andrew Purnell made an order directing that the defendant pay the complainant \$10 per month for support and a solicitor's fee of \$25.

The best sale in the world for cuts, brushes, soaps, salts, hair cream, fever sores, letter, chapped hands, chilblains, and all skin eruptions, and post-herpetic cure pills, or no pay required. It is guaranteed to give perfect relief in all cases. Price 25 cents per box. For sale by Thum Bros. & Schmidt.

Sired by Alcyon, the best son of the great George Wilkes, and the sire of McKinley, who holds the four-year-old stallion record, 2:14.2.
Also sire of more horses with records better than 2:30 than any stallion of his age.
Set dam Lady Blanche, by Privator, 2d dam Jenny Lind, by Alexander's Adalland, 3rd dam Lady Winder, by Saltram, 4th dam Highland Maid, the queen of the turf in her day, with record of 2:37, being the first to lower the 2:30 record. Alcyon will make the season at one hundred dollars (\$100) at the Boulevard Barn, Grand Rapids. For further particulars call or address,
G. G. ROBENS,
GRAND RAPIDS, MICH.

A Portrait of Yourself, Wife, Daughter or Sweetheart Free!

This is the golden opportunity of your life and is an offer never before given to the citizen of Grand Rapids.

Our Proposition is that you purchase of us one or more bottles of German Salts of the Liver and Chronic Constipation.

VALLEY CITY PHARMACY, NO. 75 CANAL STREET. PAUL V. FINCH, Proprietor.

THE PEOPLE'S COLUMN.

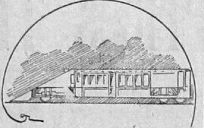

Money Circulation. Editor Morison Press—In a statement recently published, from a census correspondent, were the assertions that in 1864 there was "about \$50 per capita (of money) in circulation."

MAN MAY SOON FLY.

A CONTRIVANCE LATELY INVENTED FOR THAT PURPOSE.

An Electric Railroad With a Speed of 100 Miles an Hour—An Oil Carriage With Treated Waters—An Age of Progress.

The standard schedule time of all through cars on the proposed Chicago and St. Louis electric railroad will be 100 miles per hour.

at night; there are no through passenger cars which will run after 9 o'clock p.m., the tracks being reserved at night for high class freight, express and mail.

Women go in for all sorts of outdoor sports, and just now walking is the fashion. The heroine of the hour is the woman who has walked the greatest number of miles a day.

Practical aeronauts have not been the most sanguine in regard to the future of the balloon to be driven through the air by power.

The whole question may be said to rest on the question of motive power. The electric motor used by the French engineers have been selected for great lightness as compared with the horse power.

An Ingenious Contrivance. A Frenchman named Goussier has recently invented most ingenious device for pouring oil on the water during a storm at sea.

The cartridge is made of wood, about eighteen inches long, with a tube (A) running inside, which contains the oil. The cartridge is projected in the desired direction from a small cannon or orifice.

The heat of the cartridge is provided with a very ingenious device. The title tube B, shown in the cut, contains a small amount of calcium. Through an opening under the water this calcium is brought in contact with water, thus creating phosphor hydrogen, which ascends in the perforated tube, and ignites the ring.

The Garterphone. An ingenious little instrument called the garterphone has recently been invented by one of my friends.

A Million Friends. A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's new discovery for consumption, coughs and colds.

Workingmen! Oh! West Siders! Place Your Orders with S. G. KETCHAM for COAL, STEAM, and WOOD.

laboratory in West Lynn. In brief, the professor has succeeded by very simple means in securing extremely high potential discharges. In an arc electric lamp the carbons are, perhaps, three-eighths of an inch apart, and in a search light a little further.
