

CALIFORNIA SHAKEN DECIDERS FOR SILVER. A SEVERE EARTHQUAKE VISITS THE PACIFIC COAST. TWO VILLAGES REPORTED TO HAVE BEEN DESTROYED—TELEGRAPH COMMUNICATION INTERRUPTED—SAN FRANCISCO GETS A TOUCH BADLY FRIGHTENING THE RESTLESS.

SAN FRANCISCO, April 19.—The whole northern portion of the state of California was visited by a severe earthquake shock at an early hour this morning. The villages of Dixon and Vacaville in Sonoma county, and Winters, in Yolo county, are said to have been demolished, but as all wires connecting with these points are down the report cannot be verified, and no particulars of any kind can be obtained.

Dixon and Vacaville are post villages situated in the beautiful and fertile valley on the California Pacific railroad. Dixon is twenty-two miles southwest of Sacramento and has something over a thousand inhabitants and is a flourishing place, supporting two newspapers, a bank and a flour mill, besides other industries. There are six churches.

The athletic college, founded by the Baptist denomination in 1870, is located at Vacaville. Vacaville has three churches, high school and manufactures brandy and wine. Its population is between 400 and 500. Winters is a small town of the same name at Vacaville, and is twelve and a half miles northwest, in Yolo county.

The shock struck San Francisco about 2:45 this morning. It awakened everybody, and many people were seen running beyond their front night clothes, expecting the houses to tumble about their heads. Clocks stopped all over the city, many of them falling to the ground. Some of the windows were broken, and some of the older and taller buildings were badly cracked and considerable damage was done to business houses and dwellings in course of construction.

San Francisco. The south side of the city was also shaken, and considerable damage was done to business houses and dwellings in course of construction. The earthquake was felt in many places, and the greatest damage is believed to have been done at other localities in the state.

Late this afternoon it is reported that Dixon in the same county with Vacaville, was also damaged, but to what extent is not known.

San Francisco, Cal., April 19.—This morning at 3 o'clock this place was visited by a severe earthquake. The Masonic hall was badly shattered. The south side of the wall of this building fell on John Dugan's dry goods store, crushing to bits the building. The north side of the building fell on J. H. Rockefeller's butcher shop, crushing it into splinters. Rose Johnson, a dress maker, was killed. John Epinger & Co.'s fire wall fell on John Rehm's saloon, crushing same. Palace lodging house was badly shattered. All the chimneys in town were broken. Several windmills were blown down. All goods in stores were thrown from the shelves. Immediately after the shock occurred, but some damage was accomplished without serious damage. The loss to this town is fully \$20,000.

San Francisco, Cal., April 19.—The indicator at Chabot Observatory shows that this morning's earthquake was of the same character, time, 2:49:02. Vibration ceased at west.

San Francisco, Cal., April 19.—Two distinct shocks were felt here early this morning. The first occurred about 2:45 and the second at 2:50. The damage was done to the town.

Allen boasted that the Republican party had put an end to combines and trusts. The same idea has been expressed in some of the Republican newspapers.

What the foundation for such talk is not given. Some reference has been made to the overthrow of the Standard oil trust as proof of the truth of these assertions...

The Supreme court in Ohio last year decided in litigation, finally decided against the Standard oil trust, but not upon any real national legislation...

DO NOT BE DECEIVED

There are Some Things That Can't Be Done in a Moment.

AND THIS IS ONE OF THEM.

Note what a Grand Rapids lady says about it. The widow of a once prominent lawyer of this city, who has lived here for thirty years and is well known and highly respected by hundreds, makes the following satisfactory statement: "I was driven, by force of necessity to consult some specialist in regard to a bad catarrh of my head that had been troubling me for twenty-five years."

The cheapening of cotton through the financial legislation of the United States advantageous to India, has done as much to make the negroes of the South miserable as any other act, but the Republican leaders love the money oligarchy a great deal more than they love the poor negro laborer.

THE THEATERS.

The entertainment at Smith's opera house this week is very good of its kind. The title of it is "Only a Newsboy," and it brings on the usual incidents in the life of the street gamin that are frequently found in the cases of cheap literature. Hamilton & Herndon take the leading part in a burlesque play that generally brings applause from the gallery.

"The East Mall" continues to attract large audiences to Richmond's opera house, and the audiences are so enthusiastic at times that the applause jars on the nerves of the more sensitive. Reaction on the stars has nearly reached perfection in the play, and no one can withhold their praise for the excellent performance. The passenger train, freight train, steamboat explosion and Niagara Falls.

"The Pirates of Penzance" will be done up on the evenings of April 25 and 26. Those who are to take part in it have their lines down fine and promise a good entertainment.

Patti Rosa, the charming soprano, will be the next pretty party at work.

The New Holland Paper.
The movement to establish a working man's paper to be published in the Holland language promises to be a success. There is a field for such a paper here, today when the only news paper is hard and hard to build up a newspaper the projector feel confident that their investment will be profitable.

Indian Tradition of the Flood.
These were not, if early Christian missionaries and theologians are to be believed, a single tribe of American Indians who had at the time of the white man's advent in the western hemisphere the least smattering of tradition concerning life, industry and sufferings of Jesus. But this does not hold good in regard to the story of creation, the Tower of Babel and the flood, many of them having traditions of their own which almost exactly corresponds with the stories of these great events as related in the Bible.

One day Major Davenport, the government agent for the Muskogees, was telling some chiefs about Noah, the flood and the ark, when one of them interrupted him with "Humpf! We know that long time. We are in canoes all tied together. We float on heap water. We go and come down river, two—many times. He do, come up. Last he go down and come up with mud in his claw. We know water going down."

This was all the information Mr. Davenport could elicit from the dusky seer.—St. Louis Republic.

Poison in the Blood During a Fever.
In fever the tissue rapidly wastes, and great quantities of waste poison are stored in the blood. These poisons affect the nerves and are the cause of quickened respiration, and often of quickened circulation, which are necessary in order to get rid of the waste oxidized; when therefore unconsciousness supervenes, we may say pretty confidently that the rapid circulation and the rapid breathing have not been sufficient to oxidize and neutralize the mass of poison which is being carried to the brain.—Popular Science Monthly.

LAKE VIEW HOUSE.

Charles Godfrey's extensive improvements at the Popular Hotel's lake view house.

Among the many extensive improvements now under way at Reed's Lake is the re-arranging and decorating of Charles Godfrey's popular resort, the Lake View house. Mr. Godfrey will have his place entirely reconstructed by the middle of next week, and will be a grand improvement in every way. The parlors on the upper floor will be all torn out and replaced by a new and more comfortable room from which every view of the lake can be viewed. The porch on the lower floor will be replaced by a modern design and both the exterior and interior will be elegantly finished.

Mr. Godfrey is one of the pioneer settlers of the Lake and his many patrons will be pleased to know the grand proprietor is making to receive them.

COMES HERE TO LOCATE.

A Popular Young Saginaw Business Man Made Welcome.

Grand Rapids welcomed a new comer, and to none is the bond of fellowship extended more heartily than to those whose business experience in other cities was pronounced a "success." Last week H. V. Hughes, late of Saginaw, purchased the Ponce lunch and dining hall business at 75 Waterloo street, and hereafter will devote his entire time and energy to building up the already enviable reputation of the place. Mr. Hughes embarked in the grocery business in Saginaw fifteen years ago. He was successful in his trade, and he has since there built a two-story brick block of three floors, which he has named the "Hughes block." He catered to the fancy trade and received it. Subsequently he went into the wholesale trade, selling large quantities of coffee, teas, spices, cigars, etc., under the firm name of Hughes & Co., and during the time of course became very familiar with finer grades. This experience he now finds valuable in furnishing the best coffee and tea in the city. He also represented one of the wards on the board of supervisors, defeating in the election one of the strongest candidates in Saginaw. He was one of the instigators of the amount of the Grand Rapids Building and Loan association. For the past year he has traveled extensively throughout the One Minute coffee pot. The coming of such a man is a gain to this city and a loss to Saginaw. May we have more of them. His Saginaw friends, and they are legion, wish him, however, abundant success in his new field.

Notes.
The Grand Opera hall to be given by Harmony lodge, A. O. U. W., 1150, will be at Shanahan's hall, Plainfield avenue, instead of Saunders's hall.
