THE CONVENTION TAKES OFF ITS COAT AND BEGINS BUSINESS.

A Warm Fight Precipitated Over the Report of the Committee on Credentials—The Harrison Forces Won an Apparent Victory—A Long Night Session.

MINNEAPOLIS, Minn., June 9.—The sentiment today is in both the Harrison and Blaine ranks was decidedly in favor of getting down to the nominations with as little delay as possible. The fact is that the majority desires, and it is felt as well as what came on several days earlier than is customary in advance of the convention, are beginning to get very tired of the eternal rush and crush and brass-band drum corps, with their constant howling attachment of the contest, and they don't relish the idea that the proceedings may be protracted over Sunday. Hence strong hints have been given to some of the Blaine majority of the committee, who claim that it would not be policy to test too strongly the temper of the Harrison end of the convention by dropping out the remaining contests solely in the interests of the Blaine managers, who claim that the majority's delay improves the chances of their candidates.

Although the credentials committee did not take a recess until 2 o'clock this morning its members were in session again at 8 o'clock, and it was reported that the majority's partial report would be made to the convention at 11 o'clock and further time asked for. Senator Voss is averse to the committee dragging out its business over another day and night and that it would be better to give the members time to make a report before the closing of this afternoon's session. A night session could then be held for the presentation of the candidates and brief and early tomorrow morning the voting could be commenced in earnest.

The possibility that the nominating speeches would be made today gave an added interest to the proceedings and inspired the demand for a recess to avoid a mistake. A story was put in circulation last night that R. W. Thompson, chairman of the Indiana delegation, would make the speech nominating Harrison. This is entirely untrue, and it is reported that Thompson thought that Indiana should be permitted to present General Harrison's name because he is distinctly Indiana's candidate and because Indiana comes before New York on the call of the roll.

The Indiana manager, who came to make a speech seconding the nomination he said he thought he ought to make the nominating speech. To this the Harrison managers would not agree. When Indiana is reached on the roll, therefore, Mr. Thompson, chairman of the delegation, will announce that Indiana has a candidate whose name will be read and that when New York is reached Mr. Dewey will take the floor and place General Harrison's name on the roll.

The convention gathered slowly today. At 10 o'clock perhaps three-quarters of the delegates were present, but in the a.m., as the galleries were not half full. It has been a cold comfort to the Harrison managers that business has never more emphatic than this morning.

Senator McKinley came to his seat on the platform a few minutes before 11 o'clock, and the cheering and waving of his hands and there was no demonstration at the entrance of any other of the delegates. Even the Indiana delegation came down to his seat accompanied only by the clamor of his famous red tie, and the hall rang with the sound of life into the meeting by playing a tumultuous gallop, but with little success.

When the roll was called, the names of notable just behind the chairman's platform. Senator Casey and Senator Johnson were the first to be called. The latter was greeted by a cheer from the Harrison forces. Assistant Postmaster General Eastburn was in his accustomed place, and the roll was called in the order of the alphabet in the clerk's seat, and a photographer had set up a big camera ready to take snap shots at the roll call.

At 11:30 McKinley took the floor and made a few remarks. He was warmly endorsed to call the convention to order, but it was some minutes before the roll of his father's name was presented to the convention he said reports to the contrary were not true and that McKinley would certainly go before the convention.

ALGER'S CHANCES GONE.
Seven members of the Michigan delegation are absent from the convention. Minnesota's delegates seem to have lost the lead in the contest and it is up to this man to carry it. The Michigan delegation is in a conflict and a desire to place the matter in the hands of the state committee, which would have some influence at Washington, should the Republicans succeed, determined that the delegation should vote for Alger solely on the first ballot at least. It is believed that the Michigan delegation will be split, with one side voting with Alger and the other with the Harrison forces. THE EVENING SESSION.
The Report of the Committee on Credentials Submitted.
MINNEAPOLIS, June 9.—The evening session of the Republican national convention was slow in getting together, and long before the appointed hour the huge building was filled with a mass of perspiring humanity, the dash of electric lights and the constant flutter of thousands of fans making a picturesque and novel spectacle.

The convention was called to order at 8:45 o'clock by Chairman McKinley. Mr. Dewey arose to a question of privilege, but his motion was not sustained. Colonel Dick Thompson of Indiana, now in the convention, was today 83 years old, and that he had been a delegate to every Republican national convention since 1840. His record of public life had been in the senate of the United States, and a cabinet officer. He closed after a few eloquent remarks by moving that this convention tender its congratulations to the veteran. The motion was adopted without dissent.

Colonel Thompson made a brief speech in which he expressed his gratification at being able to be present at one of the most magnificent Republican conventions in the history of the party. His allusion to the McKinley bill was greeted with vociferous applause.

The report of the committee on rules and regulations on the resolution permitting old soldiers of the G. A. R. to be seated in the galleries was read and adopted. The report was adopted with a recommendation that it pass. The report was adopted with a recommendation that it pass.

FRIDAY, JUNE 10, 1892.

AN OUTRAGEOUS REPORT.

The Leader, Wednesday, reported Quartermaster Shank of the soldiers' home as justifying the rule now established regarding the retention of the pensioners because many of the pensioners spent their money for vicious pleasures.

It is hardly possible Mr. Shank would make any such statement; it cannot be true in the very nature of the case.

The soldier's pension papers are no matter of use to any one but himself. He can not assign it and the receipt for the quarterly payment must be signed by himself and the signature duly witnessed.

It is therefore seen that a soldier's pension papers can be of no possible use to any one else but himself and may talk to the effect that if they were in the hands of loved women must be unjust, unfair and false.

The Republican platform it is said will declare that "the United States has a long tradition and history favors bi-metalism."

The Vermont expelled yesterday morning at Great Troy, employed by the Kusterer Brewing company, went into the lower cellar to tap a keg of brewer's varnish.

St. Mark's Hospital. St. Mark's Hospital is located at the southwest corner of East Bridge and Bostwick streets. In consequence of its elevated position, not only is the most perfect drainage secured, but it is also exposed to the breezes from every quarter, by which it is cooled in summer and kept pure and fresh at all times.

There are four general wards, the first for the male medical and surgical patients being on the first floor, while the female and children's wards occupy the floor above. These wards are roomy, light, well ventilated, and each can accommodate about ten patients.

From the rest of the hospital is the operating room. The attic is sufficiently large for twelve additional rooms. All the appointments of the building are excellent—heat, ventilation, cooling, storage, water supply, elevator and other conveniences.

Pronounced Hoopless, Yet Saved. From a letter written by Mrs. Ada E. Hurd of Croton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs; cough set in, and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined, if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colic. I gave it a trial; took in eight bottles; it has cured me, and, thank God, I am now a well and hearty woman. This bottle is sent to me at Thum Bros. & Schmidt's drug store; regular size 50c and \$1."

EFFECTS OF A WAVE. A STEAMER STANDS HIGH AND DRY OVER TWO MILES INLAND. A Tidal Wave That Carried Away Several of the Light-houses and Destroyed over 40,000 Lives—The Steamer Inset but is in the Midst of a Jungle.

Tronists that visit Batavia nowadays are quite out of the fashion if they fail to make a visit to the light-house and see the vestiges of the rain wrought by the terrible eruption of 1882. If they do not see the light-house of Lampong on the Sumatra side of the channel, they are likely to land on the low shores occupied by the houses of Telok-Batu and hire carts for a short jaunt into the interior; and when they have gone about two miles they will pause to take in the curious scene presented; for here is one of the most interesting results of the great wave of Krakatau.
