STATE CONVENTION PROXIMA. A state convention of the Republican Party will be held in the city of Jackson on Tuesday, August 2nd.

IF Senator Hill is really "a Democrat" he should get married and quit being a bachelor. Socially the bachelor is a misnomer.

McMILLAN'S railroad commissioner got it by the force of the McMillan machine and McMillan money.

WEAVER WANTS "RAIS". Union Printers Are Ordered Out of the Office of His Iowa Paper.

THE LADIES TONIGHT. The ladies in charge of the orphan home will give a lawn fête tonight at the corner of Paris and Wealthy avenues.

THE WEATHER IS HOT, and it may be rainy, but no difference, this cause and these women demand a lawn fête tonight and they should have it despite the weather.

TO REACT A force bill of the Davenport stripe the Republicans will have to elect a president and house of representatives in favor of it.

THE trouble the Republicans had at Sagawau in holding a state convention in a city with a small hall and limited hotel accommodations shows the wisdom of the Democrats in selecting Grand Rapids.

public should be a lover of legal equality, sovereignty of citizenship and man's brotherhood. But it is not so with rich Americans like Andrew Carnegie who affects a lofty residence in Clarysville, Scotland, and W. A. Astor who has recently purchased the magnificent mansion on Carlton House terrace which was formerly the palace of George IV.

IT would seem as if the Republicans would really get tired voting for such a man as John T. Rich, Julius C. Burrows and Cyrus C. Eaton. They are the worst lot of barnacles this state can produce.

DAVID BENNETT HILL should be invited to Gray Gables at Buzzard's Bay for a week's fishing where he might ponder the luck and happiness a wife and daughter have brought Mr. Cleveland.

THE wisdom of the snap convention is now apparent. It saved John T. Rich from defeat. Had the Republicans not held their state convention until August Rich would have been defeated.

NO mention is made in the dispatches of the distinguished presence of Senator Hill at the elaborate notification ceremonies arranged for the Democratic nominees at New York.

BOTH Cleveland and Stevenson in their replies to the Democratic committee forgot every other issue before the country but the windy ones of tariff and a force bill.

WITH Rich the nominee for governor, the reply for senator and Woodman for congressman in the Fourth district, the chief grangers would be in it up to the neck.

THAT office cat of Dane's choked on the crow the Chicago convention put before it until a force bill was used to make the crow go down.

IF Senator Hill is really "a Democrat" he should get married and quit being a bachelor. Socially the bachelor is a misnomer.

McMILLAN'S railroad commissioner got it by the force of the McMillan machine and McMillan money.

AN OBSERVING DEMOCRAT.

What He Says is Encouraging for the People's Party. The following article sent to the New York World from Chicago during the Democratic convention, by a special correspondent, is not weakened by age.

IT is an encouragement for those who are working in the cause of the people: A question of great importance and one which is now receiving the careful attention of conservative Democratic politicians, is the possibility that in the election of November the so-called third party may succeed in carrying enough states to control the balance of power in the electoral college.

LAWRENCE GARNER, secretary of the Democratic congressional campaign committee, has given this subject a great deal of thought, and has made some significant claims showing the possible outcome of a change of circumstances which would bring the choice of the next president into the house of representatives under the operation of the constitutional provision.

"The third party, composed of the Farmers Alliance and many other smaller organizations, the membership of which is largely made up of agriculturists and laboring men, will hold its national convention at Omaha next month. A presidential ticket will be put in the field, and in a number of the southern states full tickets of state officers will also be nominated.

THE leaders of the third party now claim, with much confidence that they will be able to swing the electoral votes of Kansas, Nebraska, South Dakota, Tennessee, South Carolina and West Virginia. If this is true, the total of forty-nine votes would insure absolute control of the action of the electoral college.

THE present political outlook I am satisfied that there is no possibility of a fusion. Under certain circumstances, it might be possible, but the third party are making a strong fight for their principles, rather than for immediate success, which they realize cannot be attained. If any material advance, such as would justify the leaders in retiring their own candidates, could be secured by a coalition, I think it might be effected, but unless such pledges were given such an arrangement would be out of the question.

THE great issue of the Democratic party is tariff reform, but, although a change in revenue changes is also part of the creed of the third party, its secondary consideration with them as compared with the free silver issue. For so long the third party will fight as long as members can be held together. According to Harrison and any probable Democratic candidate they would be little for the third party leaders to choose. They would, therefore, cast such electoral votes as they might secure for themselves all the honesty of preventing either of the other parties from securing a majority of the college would be their chief object.

THE people will be heard. It is wished to impress the people when we have all the means of property at hand, and that a generation which has been born to an inheritance which has been denied to all their fathers will be subjected to all the pains and penalties of money contraction. How long the people will continue to do this I do not know, but while I live I shall continue to do them of this monster evil.

THE monopolists and contractionists are not the only ones in the money market who will be heard from yet. They have been robbed, their fortunes have been taken from them, their property has been lost, and for what? For the use of money loaned. But what our people have been told is a mere lie, to the vast millions who are the producers of the wealth and have had to be by being compelled to discount their property to buy gold to enrich the gold trust who have monopolized the gold of the world. All it will not do for these robbers—for they are not doing else, as the result shows—to claim for themselves all the honesty of honesty is banished from the world when the crime of 1873 is justified.

WHAT He Longed to See. I am standing now just behind the curtain and in the distance I can see a sunset. Behind me are the shades of the track; before me lies the dark valley and the river. When I mingle with the dark waters I wish to cast my longing look upon a country whose government is of the people, for the people and by the people.—L. L. Polk, July 4, 1889.

While both the old parties are warring over the office the People's party is dictating prices. Note the change of the Wall Paper & Paint company.

CARLETON FIGHTS HIS BILLS.

The Pennsylvania Senate Objects to the Approval of the Bills. WASHINGTON, July 21.—The Post-tomorrow will say that Senator Cameron of Pennsylvania will make an effort to defeat the confirmation of George Shiras, Jr., nominated to be associate justice of the United States Supreme court.

THE senator acknowledges that Mr. Shiras is a reputable man and a good lawyer, but he has recommended to the president the selection of J. Hay Brown, a leading lawyer of Lancaster, Mr. Quay also joining in the recommendation.

THE Post adds that Mr. Quay will vote for the confirmation and that altogether it does not look as if Mr. Cameron can prevent the confirmation of Mr. Shiras.

HAVING a Good Time. Harry Wood, wife and child, Charles O. Stewart and wife of Chicago and Mrs. May Clifford are enjoying the breeze of Fish Lake and the generous hospitality of the genial host, the veteran Dr. Cogeneswell. An elegant fish and frog breakfast is served every morning and in the evenings the large and spacious halls and rooms of the old club buildings with songs, duets, trios and quartets. Stories from the old days are related with laughter.

NEW LIFE SAVING NET. A life saving net made of stout tarred rope has been added to the equipment of the aerial ladder at No. 4 engine house. It was used in a practical test yesterday, several men jumping into it from a second-story window. It stood the test admirably.

THE Lowell Journal is bombing Franklin D. Eddy of that place for the Franklin nomination for county clerk. He is at present town clerk.

Found at Last.
 At last the people of Grand Rapids have a restaurant such as the city has long needed. Centrally located, neatly appointed, airy and roomy, the "Board of Trade," 15 Canal street, is just the place to get a lunch or a meal. Fishing at the Mouth.
 Jacob Baar says the fishing never was so good at Grand Haven as now. The white bass fishing is great. In a few hours he caught six ten large black bass and twenty-two white bass. THE CHOLERA.
 The Daily Report of its Ravages in the Old Country.

BURKHART, July 21.—The Romanian government has ordered a five days' quarantine on the Russian frontier to prevent the introduction of cholera. As a matter of fact the whole frontier is closed to traffic from Russia except at one station, and all the ports are closed against vessels arriving from Russian ports on the Danube.

LONDON, July 21.—The St. Petersburg correspondent of the Times says: "The visit of the Ameer of Bokhara to St. Petersburg has been postponed, as it is feared he might bring cholera among his retinue, and that he might himself take it in Russia, which would alarm his subjects. Private letters say that cholera rages in the whole length of the Trans-Caspian railway."

VIENNA, July 21.—Twenty-one cases of cholera have occurred at Vranza, Servia, and five of the patients have died.

TELEGRAPH MEN DISSATISFIED.
 Operators Along the Louisville & Nashville May Strike.

LOUISVILLE, Ky., July 21.—There is a prospect of a strike on the part of the telegraph operators of the Louisville & Nashville railroad. A committee of 18 of the order of Railway Telegraphers has been in session here for several days and the order of G. C. Ramsey arrived from St. Louis yesterday.

The men ask an advance of pay and the adoption of certain rules for the dismissal of men. Their demands were recently put before George E. Evans, superintendent of transportation, and upon his refusal to make the desired concession James G. McKeefe, general manager, was yesterday approached with the same request. He also declined to yield.

An effort will be made to reach President M. H. Smith and secure an agreement with him. If this cannot be done a strike is expected. About 2,000 men will be involved.

The order now numbers 21,000, all of whom are pledged to support a strike if made.

BEN BULLERS' VIEWS.
 What He Has to Say About Affairs at Home-land.

BOSTON, Mass., July 21.—General Butler, in speaking of the Homestead cases, said in regard to admitting to bail in a case where a murder was charged, that although bail is not as a rule allowed, still it was a matter wholly within the discretion of the court.

As to the extradition of Andrew Carnegie, General Butler said he could not see how a man could be taken in a foreign country for acts said to have been done in this country in his absence.

The general was very strong in expressing his conviction that legislation should be had that would cause the disbandment of the vigilantes and the prevention of such riots hereafter.

Personally, he has had no correspondence with the strikers and has heard nothing whatever as to his being engaged as counsel.
