Intense Suffering in New York City.

The Furnace-Like Heat of the Past Week Shows No Abatement.

New York, July 28.—The relief promised suffering New Yorkers by the weather bureau for today has not materialized and the awful ravages of the Sahara-like heat of the last few days continue unabated.

The stagnation in the business districts and the almost entire cessation of street traffic have characterized the last few days, with the scores of prostrations and a great many deaths reported, the most conspicuous features of life in the town.

As a result of the heat, business is almost at a standstill and outdoor work of all kinds has been stopped until more favorable weather comes.

In the tenement districts the death rate has to be traced directly to the heat, having occurred since Friday.

The thermometer got up to 88 degrees yesterday and at 7 o'clock this morning it was 83 degrees. The temperature did not get below 78 degrees during the night and it was 84 degrees at 10 o'clock today on the Equitable building and 85 at the Perry.

NORTHFIELD, Minn., July 28.—A terrible hail and wind storm swept over the town of Farmington, twelve miles north of here and an area of two miles north and south yesterday.

KIDNAPING WORKMEN

Men Obtained for Homestead by False Pretences.

They Attempted to Escape From the Guards and a Riot Ensued.

PITTSBURGH, July 28.—A riot occurred this morning on a Baltimore & Ohio train on which a party of 50 non-workmen were being transported from Cincinnati to Pittsburgh to work in the Carnegie steel works at Homestead.

When the train reached Pittsburgh, there were only 21 men on board. The remainder had been taken to the armed guard, the other 30 having escaped from the car by various means.

Joseph Manning, a printer's apprentice of Cincinnati, tells the following story: "On last Thursday I answered an advertisement in The Enquirer offering employment at easy labor and good wages."

"I was surprised to find both doors of our car guarded by a watchman with a gun and a light between them. We became suspicious and some of the pudgers slipped out the window and were going to work."

"The guards struck one of the pudgers out of our car and he ran out a long way from the car. His frantic efforts to get out of the car were not successful."

"It was seen at once that from Harrison's boat, the White Star steamer was lower in importance away ahead of the poor old fish claimant."

New York, July 28.—The Advertiser says: "Huz O'Donnell, leader of the locked-out Homestead workmen is now near Chicago, and is awaiting the outcome of an effort to win victory for his cause."

"The situation is becoming alarming and it is not unlikely that the strike will be broken up by the end of the month."

The court grants a mandamus against the secretary of state restraining him from issuing notices of election in the senatorial and legislative districts under the law of 1881.

The opinion of the court is unanimous. Justice Upson which the Court Declared the Case.

NO MASONIC TEMPLE

They Fall to Secure the County Property, and Will Not Build.

The committee appointed two weeks ago to solicit funds for the purchase of the county property at the corner of Kent and Lyon streets by the Masonic fraternity of the city met last night and submitted their final report.

The report in substance was that the committee had been very successful in the matter of securing contributions, but at the last hour they found that Edward Barnhardt six days prior to the deposit of the committee had written a letter to Deacon Loomis formally accepting the offer of the county to sell the property for \$25,000.

The Masonic committee learned was equal to a sale and if they attempted to purchase the property a bid would be made and a motion to give way to Mr. Barnhardt providing the deposit money be returned by the time the subscribers were carried unanimously.

A MASS MEETING CALLED

For the Purpose of Taking Steps to Aid the Poor.

A great agitation has broken out in Bay City. The mayor has notified me of the absolute necessity of calling for outside assistance for their relief.

"I have been called to a public meeting of our citizens to be held at the common council rooms in the city hall on Friday evening, July 30, at 8 o'clock to take into consideration the most important matter."

"REV. FATHER" FOLEY

He is Now Lying at Police Headquarters.

He Acknowledges Having Passed Two or Three Bogus Checks.

Yesterday afternoon the police were informed by telephone that the so-called "Rev. Father Foley," who passed the bogus check on E. Burkhardt, was in the city. The word came from H. B. Grady, who said the man had just been taken and wanted to pass a check for \$500.

Each patrolman was armed with a description and several men were found who resembled the description except for the eyes. Johnnie Jones once detailed an even dozen officers in citizen's clothing to pick up the alleged priest.

"My education being good I had little difficulty in obtaining a situation with a large wholesale house as traveling salesman. I found this employment better suited to my type, but I formed the idea of getting a job as a prisoner for the first time in my life."

THE EXTREMES

It is a truth to be confessed that many men in the nation are suffering from a morbid desire for making a failure in his murderous assault on Frick. It is also true that many other men applaud Colonel Strator's barbarous act and say he did not rest easy enough.

Such men are not the best hope of the nation. Neither the service of wealth nor the necessities of poverty will be allowed to dehydrate law and justice.

Now that the Supreme court has confined the Soldiers' home board in the position regarding pensions it is to be hoped that the subject will be closed.

And this is a "snakyback" Law, too. The taxpayers of this state will be saved \$1,000,000 in taxes by the provisions of the Richardson tax law of 1901.

There is not a wrong in the country today that calls for one drop of blood or a moment's bias to put right in its stead.

LEIGH HUNT'S IMPRISONMENT.

He Dared to Express in Public Print His Opinion of the Prince Regent.

Leigh Hunt's stern, unyielding aversion to pretense or sham resulted to him, as the world knows, in two years' imprisonment and the payment of a fine of \$500.

The circumstances, which may not be familiar to the minds of our readers, may be briefly alluded to here.

In the leading papers of the day had appeared some articles which, in the most fulsome and extravagant eulogies on the prince regent, which awakened in Hunt a feeling of honest indignation.

He was a friend of the corporation and the enemy of the common people. "Rich was a candidate of the big railroads who ordered their men to support him."

WHEN Congressman Holman gets his resolution ready for the condemnation of the outrage on Iams he should include with Colonel Strator, Colonel Hawkins, General Snowden and Governor Pattison.

It is perfectly safe to say that Governor Pattison is what Forney pronounced Buchanan, "a dead duck." He will never more see a future for himself in the nation.

CHIEFSHIP No. 12212 might well have been christened "The Pirate" as Columbia. "The Pirate" is a nickname given the vessel when she was designed and it will be her best known name while she floats.

The ocean greyhounds are having as hard a time getting their time down to five hours as the trotters are having in getting down to a mile in two minutes.

Now that the Supreme court has confined the Soldiers' home board in the position regarding pensions it is to be hoped that the subject will be closed.

OBITUARY.

Mrs. Martha M. Deane.
Mrs. Martha M. Deane departed this life Wednesday night at 9 o'clock, in the 77th year of her age. She passed quietly and peacefully away, death resulting from old age. Deceased was born in the province of Zealand, in the Netherlands, in 1815, and emigrated to this country in 1847 with Rev. Vandermeulen, formerly of this city, now deceased, settled at Zealand, in the Netherlands, one year later and had lived here since. Her husband Peter died in 1877, she was a lifelong member of the Dutch and Holland Christian Reformed church and her husband helped to build the old stone church on the corner of East Bridge and Ottawa streets. Deceased leaves two sons and a daughter to mourn her death.—John Deane of the Muskegon Chronicle and Jacob and Harry Deane of this city. The funeral will be held from the Lane residence, 188 East Bridge street, on Friday at 4 p. m.

August Struency was the only drunk in the box at Police court yesterday. He admitted the charge and dropped \$1.80 into the box. Frank Soltz and J. Jones were arrested on a warrant for violation of the back ordinance, were dismissed, owing to an error in the complaint and warrant. They will be re-arrested today.

Yesterday she claimed to have no acquaintance with the woman who charged her with disorderly conduct, but yesterday when the woman was in court Julia remembered being discharged, and to avoid ten days at the jail she paid \$2.50.

BARBAROUS, SAYS BUTLER.

The general committee of the State Bar Association has been organized.
Butler, July 23.—General Butler in an interview today expressed himself very forcibly against the recent publication of Private Lams at Homestead. He said:
That sort of punishment was not permitted in the war by any rule of war that I know of. Cruel and unusual punishments are as much prohibited by the constitution in time of war as in time of peace, and that prohibition should cover every case. I know of no law, either in war or peace, that prevents a private soldier from expressing his sentiments upon any question whatever, provided it is not done in such a hysterical manner as to disturb the peace, and I know of no proceeding that will justify punishing a man cruelly and excessively for expressing his sentiments, by the color of his face, or by his countenance, or by publishing him again for the same offense.
The proceeding is barbarous, cruel and unjustifiable by any law in peace or war, and if it is not, it is reprehensible and it will not be tolerated by the public sentiment that will never occur again. It will do much to disorganize our state militia and prevent them from coming forward in such a patriotic manner as to do good voluntarily to perform duty where such punishments may follow if it disagrees with his colored in political, social, moral or religious sentiments.
As the reason is expressly defined by the constitution as any levying war against the United States or against a state, or in adhering to its enemies and giving aid and comfort, I am sure there was no more reasonable in mind of less than it would if he had cited out:
"Hurry for hot cakes."
I have seen another most remarkable statement about the case, that has been taken in the newspapers that the defendant in the case was a man who had committed murder and treason. While it is true that the defendant is a man who is a matter of law, right and propriety, yet it was not reasonable in any shape or form under the definition I have just given.
"Has Private Lams any redress in this case?"
If there is an honest jury in Pennsylvania he has. It is wholly unobjectionable. In the first place the counsel should be tried by a military commission and if that trial can be had only extend so far as to take away his commission. Then should be tried by a jury for a cruel assault and put in jail or fined, and then he should be sued by the man and made to pay many thousands of dollars, if he can pay it, for the outrage. That is all that ought to happen to the colonel that I can think of now.
