Over 100 persons, nearly all of whom were here, were in the building when the fire broke out, and many were injured in escaping.

Many are missing, but the number of dead cannot be learned yet. The fire originated in the basement of the building occupied by the United States Frame and Picture company, and spread with alarming rapidity. The inmates fled from all available exits, but many were injured in their efforts to escape.

CHOLERA'S PROGRESS  
Immigration May be Totally Prohibited.

The Dread Plague Continues to Gather Headway in Europe.

New York, Aug. 27.—The cholera scare has now reached such a pitch that there is talk of putting a complete stop to emigration to this country from the infected districts, so long, at least, as the epidemic prevails.

The Secretary of the Treasury says that although emigration to this country from the United States cannot be prevented, the government can make such regulations for protection as will compel those who do not comply to return to their own country.

As the epidemic is increasing in virulence every day at the infected European ports the necessity of taking the most stringent measures to prevent its introduction here is becoming more and more apparent and the health authorities have necessarily come to the conclusion that an entire suspension of emigration traffic is the only way to prevent the situation showing no change for the better.

**HAD BEEN THERE BEFORE.**  
**A Countryman Who Is Learning by Experience.**  
 "Do you think the judge will know me," confidentially inquired John Rice yesterday morning of Court Officer Beck as he was being escorted from the cell room to the court room.  
 Rice is a tall, lank greenhorn who seems to be having a big time of his own. Friday morning he was up for being drunk. Then he explained to the court that he wanted to get out of the city. He wore a long red bowtie with a mustache to match and there were fresh decorations with tobacco juice. He explained that he had been working out all summer and had just drifted into the city to see the sights and have some fun.  
 The court concluded to give him the nominal fine for being drunk, adding that he only did so in the hope that he would never have occasion to see him again.  
 Yesterday morning he stood up with a brave heart, but his whiskers were shaved, he had purchased a new suit of clothes and in no way resembled the John of Monday.  
 "Have you ever been before?" asked the court, not recognizing him only by a tip given by the court officer. John was unable to suppress the joy that he felt, and with a hearty laugh admitted that he had.  
 "I shall have to teach you a lesson this time. Your fine will be \$10 and costs."  
 Rice went into his vest pocket, pulled out a roll of bills and handed out the fine with the remark, "I have got a little."  
 The court reminded him that the limit was \$100 and if he kept on pestering long enough he would probably be compelled to serve time on the rock pile.

**DELIVERING PARK ASSOCIATION.**  
**The New Club Files Articles of Incorporation.**  
 Articles of association incorporating the Grand Rapids Driving Club were filed yesterday with the county clerk. The capital stock is \$25,000, divided into 250 shares. The articles provide that any person who shall take one or more of the shares shall be a member of the association.  
 The incorporators are D. J. Leathers, Geo. D. Sisson, Homer C. Brigham, Frances Liley, James D. Lacey, Mitchell J. Smiley and Benjamin W. Putnam.  
**St. Mark's Academy.**  
 The selecting of kindergarten, primary, grammar and academic departments, will begin its sixth year on Sept. 13, under the principalship of Mrs. Gertrude Pierson, recently of the Fountain Street school. Mrs. Mary B. Sleigh will be in charge of the kindergarten. The school is non-sectarian and in perfect harmony with the public school system of the county.  
**Marriage License.**

**POLICY OF LOCOMOTIVE ENGINEERS.**  
**Their Attitude in the Recent Strike Explained.**  
 CHEVYLAND, O., Aug. 27.—Chief Arthur of the Brotherhood of Locomotive Engineers has dictated the following statement touching the policy of the brotherhood in dealing with strikes, which policy, he says, will explain the attitude of the organization in regard to the strike at Buffalo.  
 "On all roads," he said, "where the brotherhood is established we have general commissions of adjustment, whose duty it is to adjust all grievances of the men with the officers of the company, if possible. Failing to do so they are required to furnish the chief a detailed statement, on receipt of which it is then his duty to proceed to the place where the difference exists and use all honorable means to effect a peaceable adjustment of them. In event of his failing he then notifies the men that if they are willing to strike he will sanction it. That gives the men the support of the whole organization. The men determine whether they will strike or not by a two-thirds vote of the members employed on the road."  
 "We have thus far, by pursuing this policy for the last 23 years, succeeded in adjusting all differences with but three exceptions. We have always expressed a willingness to submit all grievances, when we could not agree with the company, to a board of arbitration composed of three disinterested persons. Personally I am in favor of that method and believe it to be the just and proper way of settling disputes growing out of dissatisfaction with wages or hours of labor."  
**SHORTEST ROUTE CHICAGO TO RUSSIA.**  
**The Canadian Pacific Propose to Make it by Way of Halifax.**  
 BANGOR, Me., Aug. 27.—Hundreds of men are working on the Canadian Pacific railway's new roadbed, preparatory to starting the new train service between Chicago and Halifax.  
 A prominent Canadian Pacific railway official was seen today. He stated that Mr. Van Horne was now in Europe negotiating for the arrangements for a fast Atlantic service between Halifax and the nearest English port.  
 "The Canadian Pacific," said this man, "is determined to enter into very active competition for the inter-oceanic traffic. The road will be gone over thoroughly. The bridges will in many cases be rebuilt, and the road will be rehabilitated and put in first-class shape. An endeavor will be made to run trains from Chicago to Halifax at the rate of sixty miles an hour, doing the distance in twenty-four hours. This, with the fast steamers, will give the shortest line between Chicago and Europe, and the Canadian Pacific railway expects to reap much financial benefit."  
 WATSON POST, G. A. E., will go via the Grand Rapids & Indiana railroad to the annual encampment at Washington. They have arranged for through coaches and sleeping cars.

**FIROZ FLAMES.**  
**Pottery Vested by a Destructive Fire That Could Not be Stayed.**  
 PETOSKEY, Aug. 27.—A \$100,000 fire visited this place at 3:30 this morning and lit up the country for miles around. It originated in the lower mill of the Northern Michigan Lumber company and soon enveloped in its fiery folds the planing mill, handle factory and saw mill. When the hullabaloo had been reduced to ashes the flames leaped among the extensive lumber piles and soon laid them waste. There was no insurance.

 In Uncle Sam's Clutches.  
 Mary C. Davis, one of the women living in the vicinity of the South Waterloo street dives, was before the United States commissioner yesterday on a charge of retailing liquor without paying the government tax. The evidence was sufficient to hold her and an order was made that she appear for trial at the October session. In looking up the case the authorities learned that the woman was doing a very quiet business in the way of furnishing rooms to applicants, as well as liquor.

FOR CO-OPERATION.

A CLAIM THAT IT WILL SOLVE THE LABOR PROBLEM.

Such is the Lesson Taught by Homestead, Says Mr. Oppenheimer—What Labor Has to Offer to the Present System—Labor's Tools.

Homestead is not an incident in the tremendous struggle for a new adjustment of the relations between capital and labor. Within the history of the industry we have witnessed the violent outbreaks in Tennessee, in Cour d'Alene, in Homestead, occurring among the great engineering concerns largely, if not exclusively, from native born element supposed to be much more law abiding and conservative than the much abused "ignorant foreigners." Within the last decade we have seen tremendous strikes and lockouts among the railroad men, the miners, the iron workers, the telegraph operators, the dock laborers, the building trades, etc., all indicating to the student of social relations the growing unrest of the working masses in this country, all emphasizing the fact that our free political institutions are being steadily and rapidly eroded by the growing unrest of the millions that happens the pursuit of which is guaranteed to them as a sacred and inalienable right.

Such is the lesson of Homestead, which at present capital can successfully call on the whole nation to support.

MEAT EATING AND MORALITY.

Count Tolstoi's First Step in the Regeneration of Manhood.

I only desire to establish the proposition that in order to lead a moral life it is necessary to observe a certain asceticism in good actions; that if a man is desirous in his aspiration to lead a good life and the practical application of that desire will necessarily unfold themselves in a certain order, and that in this order the most important is the abstention from the first virtue which he will have to cultivate.

In the pursuit of the virtue of abstention, the first step is the abstention from the consumption of animal food.

### A NEST OF ROBBERS.

**How Alleged Attorneys Fleeced an Unfortunate Girl.**

Among the pestiferous legal fraternity there is a parcel of scoundrel going the rounds which illustrate how many of the so-called lawyers subsist. Recently there appeared at a well known doctor's office a young girl whose appearance plainly showed the folly of an over-credulous nature. She told the story of her ruin and implored the aid of the physician to help her out of her trouble. He at once took the girl to the office of an aspiring candidate for admission to the Kent county bar. This man obtained a statement of the case and as once took another petitioner, an ex-convict, into his confidence. Together they laid a plot to make some way, but to accomplish their plans an officer was necessary. One was found in the shape of a constable whose record is as unfavorable as that of the other.

The girl wanted the aid of her father to save her from shame and this he was quite willing to do, but his course would not serve the ends of the heartless trio of scheming would-be attorneys and another rascal was suggested, a civil suit for damages, which was agreed to by the girl. A summons was issued, but the girl's father, as well as the boy's father, would not allow the case to come to trial.

The petitioners, however, insisted that the case go on or a settlement made and to avoid any publicity the boy's father paid the lawless attorneys \$140 to settle the case. The girl was given \$70 of this money, the ex-convict got \$35 for his services, which consisted of listening to the girl's story, the aspiring candidate for admission to the bar got \$15.00, the justice from whose court the summons was issued got \$9.50 and the balance of the \$70 is supposed to have been placed to the credit of the constable's bank account.

### Tried to Strangle Herself.

**SAGINAW, Mich., Aug. 27**—The notorious Frankie Howe, who is serving a 20 days' sentence in the city jail for drunkenness, endeavored to end her life this morning. Chief Kain heard groans from her cell and rushing in found her hanging from the iron bed with a piece of ribbon around her neck, frantically trying to strangle herself. She was released, and by the prompt action on the part of the chief she will recover.

### THE THEATERS.

The New York correspondent of the Detroit Evening News writes to his paper as follows: "James Owen O'Connor, the starred tragedian, who has been before the public for a number of years, has been taken to the insane asylum at Morris Plains. O'Connor was under the impression that he was a great tragedian and that he had the opportunity to make himself as famous as Booth or Forrest, or any of the eminent tragedians who had acquired fame and fortune." Probably no man ever appeared on a stage in New York city that created such a furor as the erratic Irishman. He made his debut in April 1888 at the Star theater as Hamlet and for many weeks there was nothing talked of in hotels, club houses and even in the tenement writer of this was fortunate in being one of the many hundreds that flocked to the theater that night. The appearance of O'Connor was ludicrous in the extreme. He was very spare of limbs and was badly kneecapped but he had a voice of thunder and a cheek of adamant and the whirlwind of cat calls and hisses that greeted him did not in the least discomfort him. He was such an original Hamlet that thousands visited the theater nightly to see in the cat call and aid in the attempt to extinguish his genius with decaying vegetables. When the public began to tire of the Hamlet, O'Connor enlisted the affections of another man's wife and together they appeared at the same theater and she weighed nearly 300 pounds the fever broke out again and all New York was talking about them.

**Mrs. Joseph Dowling**, nee Sadie Hansen, who concluded a successful engagement at the Grand last night is getting well along in years and can look back at a life that has been filled with a strange combination of triumphs and failures, the theater nightly to see in the cat call and aid in the attempt to extinguish his genius with decaying vegetables. When the public began to tire of the Hamlet, O'Connor enlisted the affections of another man's wife and together they appeared at the same theater and she weighed nearly 300 pounds the fever broke out again and all New York was talking about them.

discarded the one that started him in business and married another. He and his wife were among the audience that applauded her genius last night and at his features were scanned through a glass his flashing eyes alone told what was trooping through his memory.

The second week of the theatrical season opens tonight with Manager Straff's own excellent company in "A Barrel of Money." It is a highly interesting comedy with a plot that offers just enough tragedy to raise it above the ordinary plays of the kind. Several thrilling situations are introduced and are succeeded by a clash of fun and music before the audience has had time to tire of the more classical scenes. The company is an exceptionally good one without exception and handles comedy complications and serious situations with equal grace.

When John Phillip Sousa resigned his life position as leader of the United States Marine band at Washington it was for the purpose of assuming the directorship of the New Marine band, for which no expense has been spared in securing the best available talent. Grand Rapids will be favored with one grand concert on the night of Oct. 9 and there will doubtless be a fine audience.

A letter received from Manager C. H. Garwood contains but little cheering news for his many friends in this city. He is among the mountains of Colorado and instead of the keen air assisting him to restored health it seems to irritate his bronchial troubles.

Matinees will be held every Tuesday, Thursday and Saturday at the Grand (Redmond) opera house. Same old prices of 50 and 30 cents for reserved seats.

### The Attraction Last Night.

Did you see the little North End reporter and his best girl at the Chicago Show Shop, 28 Canal street, last night? The little fellow was presented with a light blue necktie by the cashier of the well known business house and quite captured the large crowds by his dapper appearance. A great many people stepped into the store during the evening to see him and were surprised to see the many bargains in ladies' and gentlemen's shoes.

detected stock of books and shoes and sell them at such reasonable prices that they have won the confidence of the people.

The following items may interest many Mousine Press readers. They are taken from a recent letter written by W. B. Aris, and dated at Kettle Falls.

"We have bought a steamer and have her about ready for regular trips down the river to Fort Spokane, 60 miles distant. There is a grand opportunity here for a big store. They come in here even from British Columbia mines to get flour at our mill.

"I think we shall have the ferry running which I had built. I am getting a collection of ores from near-by mines and will bring it with me. Mr. Fisk, whom you met in Grand Rapids, has been telling me of his hunting and fishing since he came here. He got four grouse last evening. Deer are plenty."
