IMPROVING THE GRAND.

At the meeting of the board of trade this evening it is expected that arrangements will be made for a public meeting to take action relative to the improvement of Grand river.

There are three ways in which the needed money can be obtained—by government appropriation, by the organization of a stock company, and by bond issue.

At the present time the most effective mode would seem to be combined action upon the part of the city and the steamboat company.

For several months past Democratic newspapers have been asking the Republicans to point out an industry which has been enabled to increase wages or increase the number of employes on account of the protection afforded by the McKinley law.

There is one industry that has sprung up and flourished like the traditional green tree under the fostering care of the McKinley law.

It is admitted that this property in the shindy industry is not without its obvious effect upon the woolen trade.

PRIVATE MAIL BOXES.

Chicago Sept. 12.—Postmaster Sexton has not yet received any instructions from Postmaster Wanamaker in regard to the general order of placing letter boxes at each door in free delivery districts.

It is no doubt reciprocally has and the effect of providing additional markets for American products.

Our exports in 1892 exceeded those of 1890 by more than \$18,000,000 and the annual average for ten years by \$20,000,000.

It is too plain to be contradicted that the increase of exports in bread stuffs was entirely owing to the failure of crops on other countries.

And the big guns on the Republican side have been fired, Harrison, Blaine and Pugh, and no one has been heard out of water yet that has been heard of.

When the editor of The Herald is rash enough to say that the appearance of a sham battle.

TAK BUREAU OF TRAVEL.

A New York Swindler Who Outraged Some Struck Yengsters. New York, Sept. 12.—William H. Walters is a young man of 16 who conceived the idea that he was born to be an actor.

The increasing price of sugar indicates it has got into the hands of the same monster that has hold of coal.

Every move that favors the growth of this city should command earnest approval and help.

There is no year for electioneering in the suburbs. Few votes will be bought with a drink of beer or a cigar.

The Morning Press heartily congratulates Mr. Fisher upon his election to the chairmanship of the board of school trustees.

A check of corn shuck has been adopted as the People's party badge in the south.

Before you conclude to leave home be sure cholera is not abroad.

What is going on in the city and the suburbs is not without its obvious effect upon the woolen trade.

HERE IT IS. Just What the Democrats Have Been Asking For.

For several months past Democratic newspapers have been asking the Republicans to point out an industry which has been enabled to increase wages or increase the number of employes on account of the protection afforded by the McKinley law.

THE G. A. R. REUNION

It Will Give Washington the Largest Crowd in 15 Years. WASHINGTON, Sept. 13.—Nearly 100,000 veterans are expected at the Grand Army encampment next week. These with the visitors will probably make a grand crowd that Washington sees even on inauguration days.

The committee on accommodations now has its books all up to date and every available foot of free quarters has been reserved for the veterans who are to be here for them up to Sept. 1. The books of the committee show that almost 55,000 will be quartered in the free quarters. Camp Farragut is set apart for those from the Eastern states and Camp Alger for those from the West. This was Chairman Edison's idea, and this decision was reached for the reason that it was thought best to put the men coming from the greatest distance in the camp nearest the central part of the city. So it happens that Camp Alger, on the Mount Vernon grounds, will be the home of the Western boys.

Recognition to be given in the pension office promises to be a magnificent affair, and the programme and invitations will be works of art that will be prized as souvenirs of the occasion. The decorations have begun their work under the direction of the artist, and by the latter part of this week the great hall of the pension office will show the talent of the decorative artist.

An elaborate and patriotic programme has been arranged, beginning at 8 p. m. in the evening, with a program of songs, and the hour by the Marine band. The president will be introduced by Commodore Willard of the United States Navy, address of welcome, followed by Commander-Charles Palmer, who will speak about the "Old Army." There will be the only speech. The music will be furnished by 50 members of the Choral society who will sing "America," "Marching Through Georgia," "Tenting Tonight on the Old Camp Ground," "Columbia," "O, God, Preserve the Land," and "The Star Spangled Banner." The last will be a feature of the programme. The famous composition will be recited by Charles J. Hanford, and a color guard will be led by a band of honor, while the Marine band plays "The Star Spangled Banner" with the whole audience joining in the chorus.

SNIBOOL books at Wykes & Burns' Department Store.

A chicken race last Sunday and another next Saturday. The regular Sunday evening chicken race last Sunday at a barn on McKinley street drew out quite a crowd of sports. At the last meeting prior to the Sunday evening race at the West side scored a sweeping victory over West side breeders, and considerable ill feeling grew out of the fight. The return contest, however, somewhat removed the bitterness of affairs, and as a result after the fight a match between the court breeders of game fowls was arranged for next Saturday night at a hotel nearabout to be agreed upon by those who enter birds for the race.

The East Side entries Sunday night were won by Isaac Louwerson of 2114 avenue, Golish Gen of Henry street and Joseph Gibbs of East street. The West Side was represented by Fred Woolper of Jackson street, Benjamin Bories of West Leonard street and Wm. Skelton of Turner street. Six birds were weighed in and fought, resulting in a victory for the West Side, the East Side bird being killed in the fight.

A long-hill race followed with eight birds placed in the pit, and this race was also won by the West Side, beating in the favor of the East Side boys, and the West Side boys as a result of poor judgment on the part of the East Side backers, carried away several dollars and their birds, which they will pool with the East Side next Saturday night.

SOLID FOR McQUEEN

Sheriff McQueen Unanimously Endorsed by Caldoats Democrats. The Democrats of Galena township met in caucus at the "Center" yesterday afternoon and elected the following delegates to the county convention: J. B. Kennedy, William Conroy, George Krabs, Patrick Brunton and David Troy.

After the election the caucus adopted the following resolutions with rousing cheers for Sheriff McQueen: Resolved, That in consideration of the able and efficient manner in which John McQueen has filled the office of sheriff of Kent county, saving a large amount of money for the county as compared with the record of his predecessor, and withstanding the increased amount of business caused by the establishment of a second Circuit court, we believe that the citizens of the county should not dispense with his services; therefore Resolved, That we address the administration of John McQueen as sheriff and that the thanks of this caucus are tendered him for the able, dignified and impartial manner in which he has discharged the duties of his office, and to the effect that we request the discharge of the duties assigned to them, and that we instruct the said delegates to use all honorable means to secure the reappointment and election of John McQueen as sheriff of Kent county.

PROSEPEROUS NEGROES

They are Doing Well in Their New Oklahoma Homes. The Negroes in Oklahoma seem to be flourishing and contented in spite of recent reports to the contrary. A traveler who has just passed through that region says: "The Negroes in and around Guthrie are industrious and prospering. In the city we see quite a number of Negro merchants, some of whom carry very nice stocks of goods, groceries mostly. In the surrounding country are scores of Negro farmers. They generally cultivate small patches of 10 to 20 acres, from six to eight families often occupying one claim of 160 acres. They seem to be very successful growers, and raise vegetables for the Guthrie market. They use the spade freely and their crops are fine crops of turnips, sweet potatoes, melons, etc. There are five Negro officials in the Oklahoma country, one trustee of the peace, one or two constables, one a member of the board of education, and another a member of the city council of Guthrie. There are several Negro lawyers and doctors in Guthrie."

Will Moore Badly Hurt

Wm. Moore, carpenter, met with severe injuries yesterday afternoon. While working repairs on the Michigan House he fell from a high step ladder, breaking his left forearm, dislocating the wrist and badly fracturing the bones of the left foot. He was taken to his residence, at room in the Ledford and Ottawa street, in a hack. Dr. Brady attended and pronounced the injuries to be the foot of a very serious nature.

Bad Boys Sent to Jail

Otto Smith and Doll Sharpburn, the boys arrested Saturday night on Davis street for disorderly conduct, were before Judge Haggerty yesterday. The evidence showed that the boys started in to have a big time, and about 10 o'clock Saturday night started tearing Davis street about in the top of their voices. They also used the vilest kind of language, and in default of fine the court committed them for 15 days each.

SPORT IN THE COURTS

A chicken race last Sunday and another next Saturday. The regular Sunday evening chicken race last Sunday at a barn on McKinley street drew out quite a crowd of sports. At the last meeting prior to the Sunday evening race at the West side scored a sweeping victory over West side breeders, and considerable ill feeling grew out of the fight. The return contest, however, somewhat removed the bitterness of affairs, and as a result after the fight a match between the court breeders of game fowls was arranged for next Saturday night at a hotel nearabout to be agreed upon by those who enter birds for the race.

A HEN ON A HOT GRIDDLE

Will not jump livelier than clothing men this fall. To get trade all kinds of schemes will be worked. The coupon racket (your wife buys a set of high priced books on the installment plan, you get a coupon entitling you to a discount in a clothing store.) You are supposed to get ten per cent. off, but your neighbor buys his clothing cheaper from us without the coupon. Then comes the man that spends hundreds of dollars for printer's ink to inform you that he can sell you a suit or overcoat for half its value (less than cost, etc.). Of course he does business for just glory, but look out for him, just the same. Another party with a big flourish throws out a few leaders, or baits, in chestnutty auction bought furnishings that seem cheap, but are dear at any price; but, oh, how this schemer will soak it to the public on goods that nine-tenths of the people can't judge the value of!

We Are Not Doing Business That Way.

All our goods are marked in plain figures with a close living profit.
